NAZIS AT STALINGRAD NOW NEARLY ANNIHILATED

BRITISH BOMB GERMANY

German Forces At Stalingrad Reduced To 5,000

Russians Advancing To Close Ring Around City Of Rostov

NAZI RESISTANCE APPEARS WEAKER

By NATALIA RENE
(I. N. S Staff Correspondent)

MOSCOW, Jan. 28.—Victorious Soviet defenders of Stalingrad today whittled the remnants of what once was a Nazi siege force down to almost the vanishing point while other Red army troops continued to surge forward in might drives on the Ukraine cities of Kursk and Kharkov and Rostov in the Caucasus.

While the total of German troops still remaining alive and un-captured in the Stalingrad area dwindled to a force estimated at 5,000 men, Soviet guards smashed relentlessly to destroy or force the surrender of the last man of 22 shattered Nazi divisions.

More Nazis Surrender

The Soviet high command at noon said that its troops operating in the northern part of Stalingrad were rapidly wiping out the German manpower after previously announcing the surrender of 3,500 Nazis in and near the city.

Large amounts of war material were captured as the German forces shrunk to fewer and fewer. The high command said that during the night officers at Stalingrad reported the seizure of 214 guns and 5,890 enemy trucks.

In the drive on Kursk, west of liberated Voronezh, the Soviets continued to score new successes following the capture of Gorschenoye within 80 miles of their objective.

Secretary Stimson Recounts Important Steps Which Favor United Nations

REPORTS CASUALTIES IN TUNISIA AREA

(International News Service)

WASHINGTON, Jan. 28.—Secretary of War Stimson revealed today that 1,258 casualties, including 211 killed, have been suffered by American forces in the fighting in Tunisia.

Stimson told his press conference that the total casualties also included 532 wounded and 515 missing. Of the missing, he said, 226 were reported to have been taken prisoners by the enemy.

The war secretary said he was heartened by the good news from the battlefronts as he reported on a review of the week's developments. He said that the following points indicate good news for the Allies:

Good News

1. The Germans are speaking publicly of defeat.
2. Field Marshal Erwin Rommel's German army is in full flight in Tripolitania.
3. American and British forces have stopped an enemy thrust in Tunisia.
4. General MacArthur's American and Australian forces have eliminated the Japanese in eastern New Guinea.

American Bombers Damage Wake Island

By RICHARD HALLER
(I. N. S. Staff Correspondent)

HONOLULU, Jan. 28. — Severe damage has been inflicted on Japanese installations at tiny Wake Island in the mid-Pacific by American B-24 Liberator bombers which turned an intended reconnaissance flight into a new successful bombing mission, it was disclosed today.

The air assault, the first against Wake since that small enemy outpost 1,900 miles west of Honolulu was blasted last Christmas eve, was carried out on Monday.

Details Revealed

Details of the new damaging assault were revealed by Col. William Matheny, of Carrington, N. D., leader of the attack force who also led the Christmas raid, upon his return to headquarters of the United States seventh air force in Honolulu.

Col Matheny said that the lengthy flight to Wake from an undisclosed American base involved a takeoff before dawn and that the planes did not return to base until after dark. The assault on Wake took place about noon.

Inflict Heavy Damage

Primarily a reconnaissance mission, Col Matheny said, the sortie resulted in a successful bombing which inflicted new damage on the Jap installations.

Smashing Offensive By Allied Forces Near, In Tunisia, Is Belief

By KINGSBURY SMITH
(I. N. S. Staff Correspondent)

WASHINGTON, Jan. 28.—A smashing Allied offensive under the direction of American Lieut. Gen. Dwight Eisenhower to clear the Axis out of Tunisia was foreseen in diplomatic circles in Washington today as one of the first military developments of the North African strategy conference.

Official reports from North Africa indicate that President Roosevelt and British Prime Minister Winston Churchill gave full approval to Gen. Eisenhower's plans to submerge as much as possible the confused French political situation there in the interests of his coming campaign to secure complete control of Tunisia as a springboard for a future assault on Axis Europe.

Germany Claims Allies Launching Tunisia Drive

(International News Service)

LONDON, Jan. 28.—The Nazi-controlled Paris radio reported today that Anglo-American troops in the regions of Medjez-El-Bab and Bou Arada in Tunisia have begun an offensive against Axis forward positions.

LONDON, Jan. 28.—United States troops in Tunisia are thrusting eastward toward the coast and are now engaged in fighting with both German and Italian forces, the Nazi-controled Vichy radio reported today.

The Axis broadcast, recorded by the Exchange Telegraph company, said that the Americans were pushing forward in the direction of both Sfax and Gabes.

They made contact with Axis forces at an unspecified point and fighting now is in progress, it was stated.

The Vichy radio yesterday, after previously asserting that considerable activity was observed in the Tebessa area of Algeria, 10 miles acros the border from central Tunisia, reported that an American army had begun an offensive.

"Forward units of this army are in contact with outposts of the Axis forces," Vichy stated.

Latest word from Allied headquarters in North Africa said that Allies in the Ousseltia Valley and in mountains to the east had recaptured some positions recently lost and are consolidating their gains.

A French communique broadcast by the Morocco radio said that local fighting continued in the Ousseltia region.

Two Japanese Planes Attack Aleutians Ships

American Ships Are Object Of Attack But Escape Damage

(International News Service)

WASHINGTON, Jan. 28.—Two Japanese float planes today attacked American ships operating in the Western Aleutians, the Navy disclosed, indicating that war operations are spreading throughout the Pacific.

The Navy failed to disclose what type of vessels these were but mention of the fact that they were "operating" indicated that they were warships of some type on a mission in the area held by the Japanese in the North Pacific. No damage was suffered by the U. S. ships.

At the same time, the Navy said that American ground forces on Guadalcanal continued their advance westward against stiff enemy resistance and in recent action killed 40 Japanese and captured five prisoners and some equipment.

The fanning out of American forces in the Pacific areas was indicated by this action in the Aleutians coupled with disclosure in Pearl Harbor that American Army airmen again have blasted Japanese held Wake Island, 2,000 west of Hawaii.

Allied Losses In New Guinea Unusually Low

Fifteen Thousand Japs Routed With All-Time Low In Allied Casualties

By LEE VAN ATTA
(I. N. S. Staff Correspondent)

UNITED NATIONS HEADQUARTERS IN AUSTRALIA, Jan. 28.—The allied campaign in the Papua territory of New Guinea which destroyed a force of 15,000 Japanese resulted in an all-time low in casualties for offensive action, it was announced today in a communique by Gen. Douglas MacArthur.

Terming the American and Australian losses low, the allied commander said that "the figures reverse the usual results of ground offensive campaigns."

Although it mentioned no totals, the communique said all of the allied losses in Papua now have been compiled. They include, it was explained, not only battle casualties but the sick and losses from natural causes.

Much Lower Losses

"Compared with those of the enemy," the communique said, "they are less than half of his ground force losses."

Allied losses in the air were in much lower proportion and the losses on the sea were described as negligible.

In such combat where assaults are made against extensively prepared positions strongly defended by experienced forces the casualties of the attacker generally are several times greater than those of the defender, it was pointed out.

"The utmost care was taken for conservation of our forces," the communique said, "with the result that probably no campaign in history against a thoroughly prepared and trained army produced such complete and decisive results with a lower expenditure of life and resources."

Two important factors contributed to this prenomenon: the absence of necessity to hurry the attack because time was not important, and the fact that the Jap positions were not rushed in a mass assault.

Detachment Of Waacs Reaches North Africa

(International News Service)

ALLIED HEADQUARTERS IN NORTH AFRICA, Jan. 28.—Full of pep and enthusiasm, a detachment of the Women's Army Auxiliary Corps has arrived in North Africa for duty at the headquarters of Gen. Dwight D. Eisenhower, American commander-in-chief of Allied forces.

The WAACS came directly from an American port in a transport convoy. A small group had arrived previously from England.

After arrival at an African port, the contingent boarded a train which carried them to Allied headquarters. The area has been heavily bombed previously.

On the sea voyage the convoy had at least one brush with an enemy submarine. The girl soldiers remained calm as destroyers tossed depth charges at the U-boat.

Inez Robb, International News Service correspondent and the first woman writer accredited by the Army, accompanied the WAAC contingent which is under command of Capt. Frances K. Marquis, 46, wife of a New York City business man.

Other officers included Lieut. Sylvia Marsili, 24, of Pittsburgh.

The WAAC unit has been assigned to duty as secretaries, telephone operators and chauffeurs.

Wife, Divorcee In "Fear" Murder

The fatal shooting of Victor Caproni in a Cincinnati, O., hospital while he was recovering from a bullet wound inflicted by his wife brought the filing of murder charges against Mrs. Pearl Leonard (right), 26-year-old divorcee ABD Mrs. Eleanor Caproni (left), his wife and mother of four children. Mrs. Leonard, who lived with the Capronis in their suburban Cincinnati home, fired the fatal shot when it was learned that Caproni was expected to recover from the wounds inflicted by his wife. Both women told authorities that his brutality inspired the killing and "it was a question of him or us".

Yanks Daylight Raid Caught Nazis Napping

AT THE EIGHTH U. S. ARMY AIR FORCE BASE IN ENGLAND, Jan. 28.—Crew members of Flying Fortresses and Liberator bombers which blasted the German naval base of Wilhelmshaven and the port of Emden in the first American air attack against the Reich declared today that they caught the Nazis napping by their sudden daylight appearance.

British Air Marshal Sir Arthur Travers Harris said in complimenting the bomber forces which made the raid without benefit of fighter escort that the attack was "well planned and gallantly executed". But the American pilots of the big four-motored bombers were less dramatic. They called the mission a "picnic".

This was the first action taken at this session of congress to control activities of union labor.

Confession In Train Slaying

Police Report Negro Dining Car Cook Signs Confession In Crime

(International News Service)

LOS ANGELES, Jan. 28.—Robert E. Folkes, 21, "zoot-suited" Negro dining car cook, has dictated and signed a full confession of the throat-slashing train murder last week of Mrs. Martha James, 21-year-old navy wife, authorities announced today.

Withholding details of the alleged confession until Oregon authorities arrive to help clear up the "mystery of lower 13", Los Angeles police, however, said Folkes admitted entering the berth of Mrs. James.

"He admitted sitting upon her chest and slashing her throat several times with a knife," declared Detective Capt. Vernon Rasmussen.

No Motive Given

While Folkes admitted the crime, he would give no motive, police asserted. Since Mrs. James' brutally slashed body toppled into the aisle of the train speeding through Oregon early last Saturday morning, police have accepted the motive as an attempted attack.

Before finally signing the complete confession, police said, Folkes contradicted himself several times. Officers quoted the cook as saying that he had made a deal with a man on the death train "to get Mrs James out of the way." He said he had been offered $1,000 to "do the job", but never received the money.

As Folkes repeatedly changed his versions, police called in a psychiatrist, Dr. Paul De River, to examine him.

"Folkes is sane," Dr. River's report stated, "but of the emotional, braggart, exhibitionist type."

Sergeant Quaill Goes To Altoona

Sergeant Thomas E. Quaill, who has been in charge of the local marine recruiting office since the departure of Sgt. John Dean for the Philadelphia naval hospital to undergo treatment, was transferred today to Altoona, Pa., where he will be attached to the induction center at that place.

The local office will be in charge of Sgt. Michael Shea who came here this week.

Sgt. Shea recently re-enlisted in the marines after having left the service several years ago, following eight years of service. His home is in Erie, Pa.

New Bombing Attacks Made Upon Germany

NAZI INDUSTRIES BEING BLASTED

By CHARLES A. SMITH
(I. N. S Staff Correspondent)

LONDON, Jan. 28.—The Royal Air Force returned to Germany during the night in a continuation of joint British and American aerial assaults to destroy the Reich's war production centers.

The German radio said that the British bombers had attacked the north German coastal area, indicating that a new blow had been struck at Wilhelmshaven or some nearby ship and submarine building center.

It was claimed by the Nazis that eight of the raiding planes were shot down.

Shortly after announcement of the attack on the coastal area the German radio stated that British bombers also had attacked western Germany in the late hours of yesterday. There was slight damage and some casualties, it was said. The Nazis asserted that three of the raiders were brought down in this attack.

Follow U. S. Attacks

The biggest bombers in the British arsenal soared over the Reich less than 12 hours after Flying Fortresses and Liberator bombers of the United States air force carried out their initial attack of the war on Germany proper with attacks against the naval bases at Wilhelmshaven and Emden.

Only a few hours previously other British bombers made the first aerial assault of the war against Nazi-occupied Copenhagen, capital of subjudgated Denmark.

Scour California Clear Lake Area For Missing Plane

(International News Service)

SAN FRANCISCO, Jan. 28—Searchers for the mission Hawaii-to-San Francisco navy plane, which disappeared with 19 persons aboard, today scoured the Clear Lake area of northern California while officials attempted to identify a body found in the lake.

The body was first believed to have been that of a crew member on the missing ship, but later reports made this appear unlikely.

Despite published reports, no wreckage had been found up to an early hour today.

An "oil slick" on the lake which was reported by aerial searchers also was being investigated.

Let the night winds howl on their icy spree, let the snowflakes cover the street, let the rationers do their cutting down on coffee and sugar and meat. I'm thinking now of the days to come when the garden will be a scene, when the snow wrapped earth will be luscious brown and covered with stuff that is green. I'm thinking of carrots and yellow beans, tomatoes of tempting red, and broccoli with its funny top and cauliflower coming in head. So on with the cold and the icy nights, let the winds howl on their spree, they'll have to give way before very long, the weather is thirty-three.

New Reapportionment Plan Is Ready

Measure Will Reach Assembly

Administration Would Reduce Philadelphia Delegation One Member

OTHER CHANGES WOULD BE MINOR

By JOHN PAGET
(I. N. S. Staff Correspondent)

HARRISBURG, Jan. 28.—The administration-approved congressional reapportionment program recommended by Gov. Edward Martin will be ready for consideration by the general assembly within a fortnight, senate majority leader Weldon B. Heyburn said today.

He indicated that if revision of district lines had not touched off disputes between rural and urban legislators the program would have been introduced last week.

Assembly Recesses

After a three-day session, the assembly recessed for the week and will return Monday night to receive a score of bills based upon the 16-point legislative program outlined by the governor. Not all the bills, however, will bear the administration's stamp of approval.

Speaker of the House Ira T. Fiss urged House members to "get to work" to assure a speedy war-time session. He pointed out that the House had only one bill on its agenda while the Senate had nine.

"It certainly is our desire to have a short session because that is the wish of the people," he told the House. He asked members to stop sponsoring "harmful" or unnecessary proposals.

The reapportionment program, which will be introduced in the Senate, will be designed to return the state to substantially the same districts in effect in 1942 when they were reshuffled at a special session of the assembly on the basis of the 1940 census. One congressman was dropped, reducing the state's delegation to 33, including one representative elected by the state at-large.

Reapportionment Plan

Briefly, the reapportionment committee proposes to reduce the Philadelphia delegation from seven to six members and restore a District of Allegheny county, now represented by five congressmen. Only minor changes have been proposed for other sections of the state. The congressman-at-large post would be eliminated. It is now held by Rep. William I. Troutman, of Shamokin.

Heyburn said he did not anticipate any militant opposition to redistricting the state. Both houses are Republican-controlled. Governor Martin is expected to sign the measure after it is approved because he recommended a reapportionment of the state's congressional, senatorial and representative districts. Revision of the 208 representative districts and the 50 senatorial districts has not been launched yet.

Republican leaders have stated that enactment of the reapportionment programs will probably force the legislature to abandon the April 15 deadline for final adjournment.

YANKS DAYLIGHT RAID CAUGHT NAZIS NAPPING

would go in first," said Hennessey.

The field was crowded with officers from American stations thruout England when the formation took off Wednesday morning. Hundreds of American air force men grumbled because they were not picked for the first bombing raid on Germany.

Col. Armstrong, in line with air corps tradition, will grow a beard which he hopes to wear for the duration. Commanders of bombing missions who bring their ships back safely are entitled to whiskers.

Losses Are Low

All of his bombers returned safely. But flights from other bases did not fare so well. Three of our four-motored ships were lost, but the percentage was so low that RAF officers called the expedition "magnificent" in view of the fact that it was a daylight raid without fighter escort.

Returning pilots said the opposition was feeble. Anti-aircraft fire was weak and they coped handily with German interceptors.

Capt. William J. Crumm of Scarsdale, N. Y., piloting "Jack the Ripper" on her ninth mission, made the raid in black face. He spread burnt cork under his eyes as a protection against sun-glare.

There was plenty of excitement for his crew. A German fighter was shot down by Gunner Sergt Pete Deboy of Arbutus, Md., and then a fragment of an anti-aircraft shell crashed into the ship. It knocked off the oxygen mask of Bombardier Lieut. Robert Kleyla, Philadelphia, and then lodged in the neck of Lieut. William C. Leasure of Clymer, Pa.

campaign, which is expected to be carried out under his direction in co-operation with the forces of the British Eighth Army which has reached Tripoli.

Official sources in Washington point out that Gen. Eisenhower has been kept so busy handling the political situation in French North Africa and the supply problem for his army that he has not yet had a chance to show what he can do against the Axis forces in Tunisia.

With the president and Churchill supporting his handling of the French internal and administrative situation, Gen. Eisenhower is now believed to be in a position to speed up his plans for leading the final all-out offensive to drive the Axis out of North Africa.

The only sure thing about post-war America is that new models will be so different and so improved we'll all have to start over.

Deaths of the Day

John Coulter.

John Coulter, aged 75, of Neshannock township, R. D. 5, New Castle, died at his home Wednesday afternoon at 12:45 o'clock. He had been ill for the past two weeks with a heart ailment.

A lifetime resident of Lawrence county, Mr. Coulter was born August 9, 1867, a son of Allen and Jane Earl Coulter. He was a well known retired farmer and was a member of the Coaltown Free Methodist church. On January 25, he had been married for 48 years to Caroline Eppinger Coulter, who survives him.

Mr. Coulter, the last surviving member of a family of six children, leaves, in addition to his wife, the following children, Mrs. Caroline Ruby, Mrs. Eva Graham, Mrs. Edna Forrest, Harry Coulter and John Coulter, Jr., all of New Castle; 19 grandchildren and 11 great-grandchildren.

Funeral services are to be held Saturday afternoon at 2 o'clock at the Coaltown Free Methodist church with Rev. A. J. Hill of Ellwood City in charge, assisted by Rev. D. E. Joseph of the Coaltown church. Interment will be in Graceland cemetery.

The body is now at the R. L. Boyd funeral home, North Jefferson street, where friends may call this evening from 7 to 9 and Friday afternoon and evening from 2 to 4 and 7 to 9 o'clock. The body will be taken to the church for services Saturday.

Mrs. Catherine Sophia Leonhardt

Mrs. Catherine Sophia Leonhardt, aged 77, of R. D. 1, Ellwood City, died this morning at 2:30 o'clock in the New Castle hospital. Ill for three weeks, Mrs. Leonhardt had been a patient in the hospital for one week.

Mrs. Leonhardt was born in Butler county on November 11, 1865, a daughter of Mr. and Mrs. Adam Piefer. She was a member of Mt. Hope Zion Lutheran church.

Surviving are three children: Mrs. Dora Shaffer, of R. D. 1, Ellwood City, Mrs. Isabel Watters, of New Castle, T. A. Leonhardt, of R. D. 1, Ellwood City; one sister, Mrs. J. M. Schaeffer, of Sandy Lake; six grandchildren and one great-grandchild. Her husband, Henry Leonhardt, preceded her in death on January 1, 1919.

The body has been removed to the R. L. Boyd funeral home, North Jefferson street, where services will be held Saturday afternoon at 3:30 o'clock. Rev. Ludwig Beisecker, of the Ellwood City German Lutheran church, and Rev. F. H. Daubenspeck, Mt. Hope Zion Lutheran church, will officiate. Interment will be in Mt. Hope cemetery.

The family will receive friends at the funeral home this evening from seven to nine and Friday afternoon and evening from two to four and seven to nine o'clock.

McQuade Funeral Time.

The body of John J. McQuade, 34 North Jefferson street, who was found dead Wednesday morning at his home, has been removed to the Campbell funeral home, East North street, where it will remain until Friday afternoon and where friends may call any time.

On Friday afternoon, the body will be sent to Cook's funeral home, 190th street and Jerome avenue, New York City. Funeral mass is to be celebrated in New York on Monday morning. Interment will be in Gate of Heaven cemetery, New York.

Mr. McQuade, who was born in New York City, a son of Thomas P. and Anna Foran McQuade, had resided in New Castle since 1913. He was a member of St. Mary's church here and was employed in the advertising department at the Johnson Bronze Co.

Mrs. Fanny Stevenson Conner.

Mrs. Fanny Stevenson Conner, aged 82, wife of the late Smith Conner, died at the home of her son, Frank Conner, Five Points Aliquippa, Wednesday afternoon at 3:30 o'clock.

Mrs. Conner was born in Niles, O., on November 5, 1860. She had resided in Aliquippa for 15 years, going there from New Castle. She was a member of the Free Methodist church of Aliquippa.

Survivors are two sons, Frank Conner of Aliquippa, Russell P Conner of Youngstown; the following grandchildren, Cassius S. Conner of Lima, N. Y., Frank Conner Jr., of Aliquippa, Jack Conner with the United States Army in Alaska, Dale and Betty Conner of Aliquippa and seven great-grandchildren.

Funeral services will be held Friday evening at 8 o'clock at the Marsden funeral home, 809 Franklin avenue, Aliquippa, with Rev. Berdsell of the Free Methodist church there, in charge. Interment will be made in Oak Park cemetery, this city, Saturday afternoon at 3:30 o'clock.

Miss Bassham Services

Funeral services for Miss Harriet F. Bassham of New Galilee were held at the Presbyterian church in New Galilee Wednesday afternoon at 1:30 o'clock with Rev. W. W. Willis, pastor of the New Galilee U. P. church, officiating.

Relatives of the deceased served as pallbearers.

Interment was in the United cemetery, Pittsburgh.

was being drawn tighter by a Red army column advancing northwestward along the Salsk-Rostov railway. This force struck to within 60 miles of the Caucasus gateway city by taking Ataman. The latest advance brought Soviet columns to within the same distance of the city at three points. Soviet armies have reached to within 60 miles of Rostov in a drive along the Don river and also in a push southward along the Moscow-Rostov railway.

Annihilation of several isolated Nazi groups on the Don front was proceeding swiftly, the high command said. It was declared that the German resistance was appreciably weakened.

Several counter-attacks were repelled on the southern front as the Red army marched forward and occupied an inhabited locality. A full company of infantry was wiped out on one sector.

Seize Much Material

A battalion of infantry was routed on the southwestern front as the Soviets captured another inhabited locality and seized much war material.

Desperate attempts were made by the Germans to stem the Russian advance on the Voronezh front near two inhabited localities but the Nazis were forced to retreat after sustaining heavy losses. In one sector alone 540 of the enemy were taken prisoner.

Several more inhabited localities were captured in the northern Caucasus and 200 Germans were reported killed.

Surrender of 5,000 Nazi troops southwest of Voronezh to encircling Red army units was announced and 3,350 of the trapped Axis remnants before Stalingrad ran up the white flag.

(A Swedish report said the Finnish town of Petsamo, 75 miles northwest of the Arctic port of Murmansk, had fallen to Russian forces smashing ahead on the northern front. Petsamo has been used by the Luftwaffe as an airbase for attacks on Allied convoys.)

WORCESTER, Mass., Jan. 28.—Because of transportation difficulties, Holy Cross seniors will be graduated this spring at their local postoffices.

The Rev. Joseph R. N. Maxwell, S. J., president of the college, said today no formal commencement exercises would be held and that degrees will be mailed the 233 seniors graduating.

Davis Completes Thirty Years With Telephone Company

Field Engineer For Company Has Never Lost Day Because Of Illness

RALPH F. DAVIS

Co-workers and friends are congratulating Ralph F. Davis, 307 Norwood avenue, on the completion of thirty years of service with the Bell Telephone Company of Pennsylvania, January 27, marking the anniversary of this event.

Mr. Davis, who for the last six years has been chairman of the Lawrence County Chapter of the American Red Cross, is a field engineer in the New Castle office of the Telephone Company.

Mr. Davis first went to work with the company January 29, 1913, as a climber. Since that time he has never lost a day's time because of sickness or accident.

In addition to his Red Cross work, Mr. Davis has been active with the Boy Scouts for 21 years. He is a 32d degree Mason, a Forest Fire warden, first aid instructor, and a member of the Telephone Pioneers of America, an organization of veteran Bell employes.

Mr. Davis, who has lived in New Castle for the last 27 years, is married and has two daughters.

canal are mopping up enemy troops.

In Russia, Stimson said, the resistance of the Russians may make the battle of Stalingrad "one of the most decisive battles of history."

Reporting on action elsewhere on the Russian front, he added:

"It looks as if the Germans are going to evacuate the Caucasus."

German Force Reduced

The war secretary said that the German force near Stalingrad, once estimated at about 200,000 troops, has been reduced by evacuation and casualties to about 9,000 men.

"This is the end of the great German offensive of 1942," he declared. "Many of the gains of that offensive have been wiped out and there is a good chance the Germans may be driven back to their starting point."

In North Africa, he said, Rommel's army continues to retreat and at least one division of the German army has entered Tunisia. Advance units of General Sir Bernard Montgomery's British Eighth Army have been slowed up in pursuit by land mines, he added.

"Reports indicate that Rommel made every effort to destroy the harbor and block up the channel at Tripoli," Stimson declared, "but it is being repaired and it is expected to be in use soon."

NEW BOMBING ATTACKS MADE UPON GERMANY

the mightiest air forces in the world marked the start of a concerted all-out campaign directed at reducing the constant threat to Allied shipping by Nazi submarines.

Prior to the attacks on Copenhagen, Wilhelmshaven and Emden British planes early yesterday pummeled the German submarine pens at Lorient, France, and struck at the harbor of Bordeaux. Lorient for the past week has undergone a series of assaults by both British and American craft.

The Copenhagen assault was directed against the Diesel engine works and submarine building yards there. It was carried out by speedy light Mosquito bombers.

Your Federal Income Tax

NO. 22
INCOME FROM ANNUITIES

Annuities have become a populah form of investment in recent years, and because of the nature of annuity income especial treatment is required in the preparation of a Federal income tax return.

Several forms of annuities are found, but the most common are annuity contracts issued by insurance companies. An endowment insurance policy may be payable to the beneficiary in monthly or annual sums for a period stipulated in the policy, frequently for the life of the beneficiary, or a person may purchase, for a flat sum, an annuity policy from an insurance company which provides him with a monthly or annual income for life. In such annuity contracts, a portion of the payments received represents interest on the sum or sums paid for the policy or contract, and a portion represents a gradual return of the principal to the annuitant. Only that portion of the payments which represents interest on the cost of the policy or contract is taxable income, and for purposes of uniformity the law provides that this portion shall be considered as 3 per cent of the cost until there has been excluded from gross income an amount equal to the principal sum paid for the policy. Thereafter, the entire amount of the annuity is taxable income.

Annuity income, accordingly must be reported in the Federal income tax return, whether the annuity is a gift received from some one else, or received as the proceeds to a beneficiary, of a life insurance policy issued to another.

If the annuity derives from a straight annuity contract, then the cost to be shown would be the amount of the single premium paid for the policy. If the annuity is received by the policyholder of an endowment insurance contract, payable in installments to the policyholder, then the cost is the sum of the premiums paid for the policy.

In addition to the cost of the policy, as stated above, there must be considered the amount of the annuity income received during the year. The portion of this annuity income which is taxable, namely, 3 per cent of the cost of the policy, is the amount to be entered in item 7 of the return Form 1040; the balance is nontaxable and is to be applied against the cost of the policy. When the taxpayer has received nontaxable income in this manner equaling the cost of the policy, thereafter the whole annuity income each year must be entered as taxable income in item 7 of return Form 1040.

The principles set forth above for the treatment of annuity income apply also to retirement income, annuity pensions, and other forms of annuities. In the case of retirement income and pensions, where no payments have been made for the income, then the whole amount of the income is taxable (except for pensions to War veterans and their families.)

The present plan to prevent the spending of high wages is to slap a higher tax on white-collar people who don't get any.

Food may not win the support of neutrals, but you never heard of anybody shooting at Santa Claus.

Splendid Cough Syrup Easily Mixed at Home

It's So Easy! Makes a Big Saving. No Cooking.

To get quick and satisfying relief from coughs due to colds, mix this recipe in your own kitchen. Once tried you'll never be without it, and it's so simple and easy.

First, make a syrup by stirring 2 cups granulated sugar and one cup of water a few moments, until dissolved. A child could do it. No cooking needed. Or you can use corn syrup or liquid honey, instead of sugar syrup.

Then get 2½ ounces of Pinex from any druggist. This is a special compound of proven ingredients, in concentrated form, known for its effect on throat and bronchial membranes.

Put the Pinex into a pint bottle, and add your syrup. Thus you make a full pint of really splendid medicine and you get about four times as much for your money. It never spoils, and children love its pleasant taste.

And for quick, blessed relief, it is amazing. You can feel it take hold in a way that means business. It loosens phlegm, soothes the irritated membranes, and eases the soreness. Thus it makes breathing easy, and lets you get restful sleep. Just try it, and if not pleased, your money will be refunded.

The Story Of
Famous Diamonds
Diamonds That Have Shared In the Course of World Events
The STAR of SOUTH AFRICA

This diamond was bought by Schalk van Nickert from a native witch-doctor in darkest Africa. The London purchaser ordered it cut to a fine oval, three-sided brilliant of 46½ carats and later sold it to the Countess of Dudley who had it mounted in a tiara. Sixty-five years ago the following statement by a world-known British colonial official, now famous in the annals of history, rightly prophesied the future destiny of South Africa when he said: "This diamond, gentlemen, is the rock on which the future success of South Africa will be built."

PLANES TO KEEP AHEAD OF THE AXIS

DECLARED to be capable of traveling faster, farther and to more deadly effect than any other planes of its type, the Army's new Curtiss A-25 dive bomber is now in production. The fact comes out in a suggestion that the military authorities would like to get a good "blood curdling name" for this weapon, which is the successor to the "Helldiver."

No doubt something adequate in that direction will be developed. Immediate interest rests upon the disclosure that our air force and attendant agencies have produced such a machine. We do not want to make a mistake now generally credited to Goering and Hitler by freezing our aircraft production to certain established types. No matter how well they function for a while a better plane—faster and more efficient—is always on the way.

America must keep ahead of the enemy with every form of plane: more deadly dive bombers, more heavily armed and speedier fighting planes; more powerful bombers. It is encouraging to know that every effort to win that race is being made.

CHEMISTRY IN WAR

The part chemistry is playing in modern war is indicated by January allocation orders of the chemical division of the war production board providing for distribution of such products. The value of chemical output for the month is put at $85,000,000.

Of this quantity 66 per cent enters directly into military production and many derivative products in the 34 per cent not identified as direct military items are necessary for the manufacture of military materials.

Military chemicals include essential raw materials for the production of all explosives, propellants, aviation, naval, ordnance material and signal corps insulation, as well as special protective coatings for vehicles and guns and special paints for war and merchant ships.

It is estimated that total value of chemicals to be produced in the United States this year will top $1,000,000,000, with $676,000,000 of this output to be used for military purposes.

REAL DRIVING

Some of the accounts coming out of North Africa detailing the service of the ancillary forces there disclose the difficulties confronting the United Nations armies. Motor drivers, in moving the armies forward, find the roads poor. For the most part only one-way traffic is possible. The bridges are narrow and chuckholes numerous.

Road builders have been set to work widening roads and replacing bridges. Near them work the men of the signal corps repairing a badly delapidated communication system. Around them struggle the men who are constructing new air fields on a soil which swells inordinately when wet and cracks quickly when drying.

In the midst of these activities truck drivers thrust their cavalcades forward. And when the history of this campaign is written, some of their exploits will win a high place in martial achievements.

Among those exploits will be the feat of one convoy of 300 vehicles, fifteen miles long. It pushed forward over narrow, tortuous mountain roads, part of the time without lights, and traversed 380 miles in 29 hours.

NEW PENSION PROBLEMS

The annual report of the administrator of veterans affairs for the fiscal year 1942 speaks of the pension problems growing out of this war as "rapidly increasing." How rapidly may be seen from two sets of figures. At the end of the fiscal year on June 30 last 93 veterans of this war were in receipts of pensions for disability as the result of service and the dependents of 1,153 deceased veterans were in receipt of pensions. In the fiscal year a little more than $200,000 was disbursed for these pensions. On October 31, 1942, three months later, 1,129 veterans were receiving pensions and the dependents of 2,625 veterans were in receipt of pensions. The number of pensioned veterans had increased elevenfold and the number of pensioned dependents had more than doubled in the three-month period in question.

Another reminder of the financial burden of the war, as well as of how it has reached into millions of American homes, is the war department announcement that 1,294,852 dependents of enlisted men are now receiving dependents' allowances. More than 133,000 applications have been temporarily disallowed, in many cases because required information was not provided by the applicant. Only 10,607 applicants are listed as disapproved.

PLANES TURNING TIDE

A new phase in the war has appeared in which superiority of plane power is seen playing anew a preeminent part. Everything indicates that the plane will play a still greater part in approaching weeks.

As Hitler has been sent reeling back in Russia his lack of planes palpably has contributed to his defeat. He has needed fighters and bombers in defense of Tunis, Berlin and occupied cities along the English Channel and has been forced to scatter his air forces.

The answer to air attack is air defense. Nothing is as effective in stopping a plane as another plane and nothing can fend off a fleet foray upon a position except another fleet rising in the air to meet it. Nothing can engage successfully air armament save an armament equal not only in aggregate power but in numbers.

This is to be plainly seen in the plight which is hourly sapping Hitler's strength to the point of inevitable prostration. He lacks planes to protect his armies in Russia, planes to save his now slender beachhead in North Africa, planes to prevent assaults upon Berlin and other German cities by air bombing.

There is no way in which he can save himself. The future will find him with fewer planes and the Allies with more. It was asserted at the start of this war that plane superiority was to be a most important factor in the conflict. This is now being proved by the Allies not only in Europe but in the Southwest Pacific.

The Parent Problem

By Garry C. Myers, Ph. D.

WARTIME MOTHERS HAVE HARD TIME

MANY a mother with an infant or young child is left alone for long periods for indefinitely, with this youngster, while her husband is at some distant place in a war industry or the armed forces.

Denied by this separation of normal companionship and affection from her husband, the young mother is tempted to lavish too much affection and attention on her child, especially after he is a year or so of age.

Nor will she have the usual reminders from her husband that the child should learn to be self-reliant physically and emotionally, be denied what he should not have and be disciplined in restraints.

Confused Ideas

Be it remembered that whereas there are many spineless fathers who never would say NO to a tot or attempt to restrain him, most fathers are more inclined to want their little child disciplined, even spanked, in order to restrain him wisely, than mothers are. Fewer fathers than mothers have been indoctrined with the silly notion that "a youngster's personality will be warped" if duly restrained. Moreover, many a young mother left alone to bring up her child has grown confused over the many things she reads.

Of course, the baby and young child need lots of affection. Yet as this child grows and is able to profit from waiting on himself, amusing himself and playing with other children, his mother who is left alone is inclined to do too much for him, amuse him too much and keep him, moreover, from learning to be happy out of her sight.

Difficulties Of Travel

A great many of these young mothers who travel about with the baby or young child to visit the husband must live in crowded quarters or with relatives. This makes it hard to keep the youngster happy and unspoiled. It is hard for her to hold the child to good standards and routines and discipline, though this very experience makes such discipline more desirable.

For this mother and other young mothers I have written a number of special bulletins announced in this column from time to time, to be had without cost, but merely for postage (by writing me at 235 East 15th street, New York City, enclosing a self-addressed envelope with a three-cent stamp on it for each bulletin desired). These bulletins include such matters as training in good appetite, good toilet habits, sleep habits, obedience, preventing stubbornness and the like. Please don't forget the self-addressed, stamped envelope for each bulletin desired.

Solving Parent Problems

Q. Mealtime for my 2-year-old baby is a nightmare. Please tell me how I can get her to eat what she should without a scene. If you have a bulletin which shows just how to deal with such a problem do send it to me in the self-addressed stamped envelope which I have enclosed.

A. Let this child feed herself. Place on a low chair or table a very small helping of one most important food with a spoon beside it. Make a noise on the plate to let her know the food is there. Walk away with your lips sealed. Return after five minutes. If she has not begun to eat the food with spoon or bare hands, remove it, your lips still sealed, and end the meal there, making sure she can have no other food till the next meal.

AS FATHER DID

My father never thought it strange
To wear a shirt two days or more.
He never thought he ought to change
The socks he'd worn the day before.
Of suits he was content with two,
For work, the old; for best, the new.

My father often walked a mile
"To save the carfare," so he said.
But little heed he paid to style;
One hat for years adorned his head.
And, as my mother always told,
He loved a hat when it was old.

My father wasn't hard to please.
Of course, the times were different then.
He'd make a lunch of bread and cheese.
He never envied other men.
Did mother need an extra shelf?
My father put it up himself.

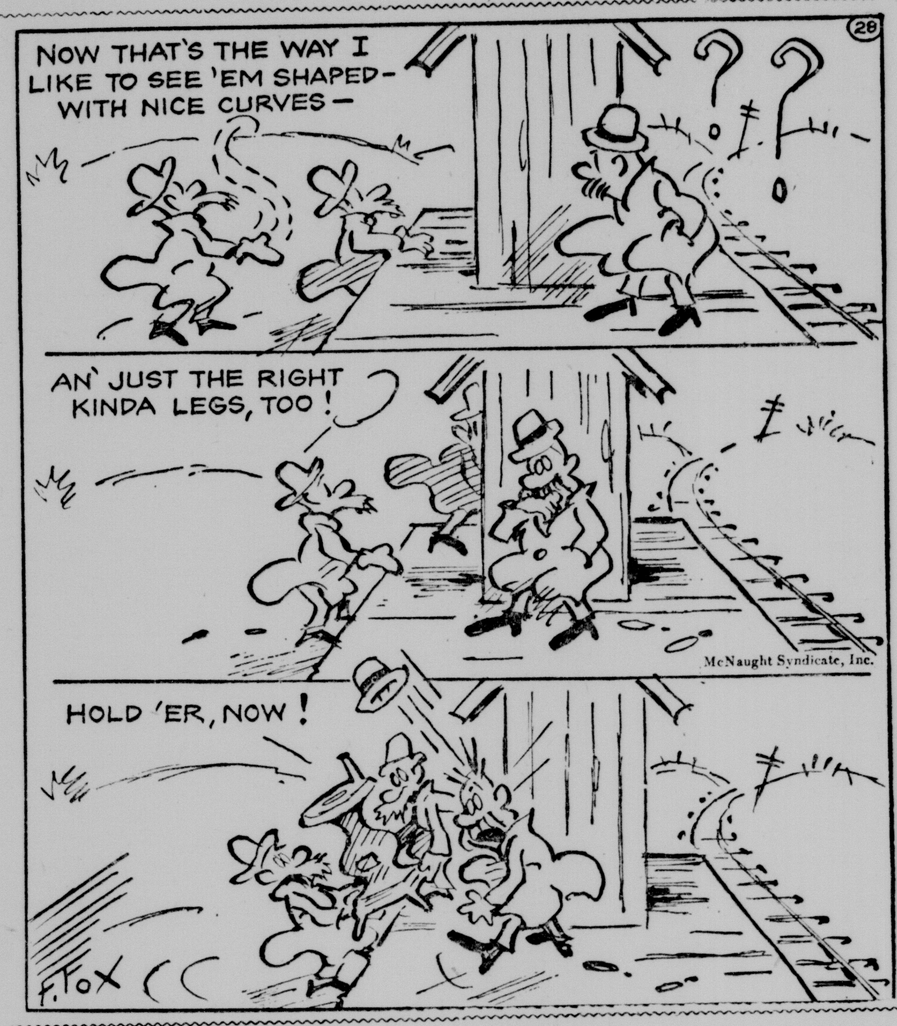

"The laundry failed to come," they say.
Most of the help to war has gone.
I'll wear this shirt again today,
Though yesterday I had it on.
Perhaps I'll learn before I'm through
A lot of tricks my father knew.

Hints On Etiquette

If a young woman goes to a strange city or town to live and either parent has an old friend in the same place, it is customary for the parent to write to the friend and mention the fact that the daughter is now situated in the same town and ask the friend to call upon the girl. This is the correct procedure, even if the friend is a man and a bachelor.

It isn't the 40-hour week that causes complaint now, but paying time-and-a-half for the next eight hours.

Little Solange, six years old, was looking at herself in the mirror ceaselessly and making a thousand and one elegant gestures. Her good mother, without appearing to notice, began to tell her:

"I once knew a little girl who thought she was very beautiful, but it was really just the opposite, and the more she admired herself the uglier and more frightful she actually became, and one day . . ."

But Solange continued to survey herself.

"Oh, mother dear" she said with a languid air, "if you only knew how little that story interests me!"

LADIES FIRST

"To help me decide a bet on a point of etiquette tell me whether there are any exceptions to the 'ladies first' rule—socially speaking," asks Maude S.

There are several exceptions to that rule. The man goes ahead of the woman he escorts to the ticket-taker at a theater. When going up or down a lighted stairway, the woman precedes. But if the stairway is dark the man goes first. From a train, street car or automobile, the man alights first to assist the woman with him. When two couples attend the theater together, the man in the first couple enters the row of seats ahead of the woman in the second couple. When leaving the theater, the women precede the men down the aisle. When entering a public dining room where there is no waiter in evidence the man is justified in stepping in front to select the table and hold out the chair of the woman he is escorting. The woman enters all doors first, but the man steps ahead of her to hold them open.

Question: My husband and I are to give a dinner dance. If any of our guests do not dance, should my husband and I refrain from dancing all evening and sit with them?—Mrs. H.

Answer: Of course, if there is only one nondancer among your guests, either you or your husband should remain with him or her while the others are dancing. It would be decidedly rude for both of you to go off and leave this guest entirely alone. But if there are two or three nondancers (who may entertain one another while every one else is away from the table) you and your husband may feel free to leave the table and dance every dance. But why invite to a dinner-dance any one who does not enjoy dancing? By so doing, you are simply spoiling your own party for the one who should enjoy it most—yourself. Free yourself from the idea that it is your duty to invite to parties people who, because they are misfits, will bring misery to themselves as well as to all others present.

NOT FOR HIM

A little chap was offered a chance to spend a week in the country, but refused. Coaxing, pleading, arguing, promising of untold wonders, alike brought from him nothing but the stubborn ultimatum: "No country for me!"

"But why not?" some one asked finally.

"Because" he responded, "they have thrashin' machines down there an' it's bad enough here where it's done by hand."

Situation Is Considered Muddled One

By CHARLES P. STEWART
Central Press Columnist

WASHINGTON, Jan. 28.—Uncle Sam's approximate 3,000,000 of wartime federal bureaucrats could be thinned out by about 1,000,000, according to Representative John M. Robsion of Kentucky, not only to the tune of an enormous financial saving but as a preliminary to an enormous improvement in the service.

The Kentucky lawyer expressed himself in accompaniment to a congressional investigation, just starting under the chairmanship of Representative Robert Ramspeck of Georgia, into governmental employment methods.

The quiz has not yet progressed far enough to be very indicative yet. Nevertheless the initial testimony decidedly is down the alley that he refers to.

The regular departmental workers are not the ones criticized. The special agencies' staffs are the folk under fire. Even the rank-and-file of these staff members are not so much blamed as their superiors are.

The underlings, it is asserted, are pitchforked wholesale into jobs that do not mean anything to their bosses themselves. Having nothing definite to do, they simply loaf at a multiplicity of desks and clutter up thousands of offices detrimentally to the activities of the few who actually have individual ideas of the duties they would like to be attending to competently. At least, that is the story the Ramspeck committee is listening to from its witnesses.

Congressman Robsion tells of a farmer in his home district, from whom the government needed certain crop information.

Quizzed By 16!

It was easy to get, says Robsion, and a single researcher could have obtained it, in the course of a few minutes' chat with the agriculturist. Yet in the course of one day, relates the Kentucky legislator, that farmer was visited, in succession, by 16 different sleuths, asking the same questions.

It delayed the farmer.

Furthermore, his 16 separate inquisitors turned in 16 conflicting

THAT "INCOME TAX"

It is amazing how little "horse sense" is possessed by the Congress of the United States and all officials of the government regarding the subject of taxation.

Take this Income Tax business. It would seem that the creators of the Income Tax in the beginning deliberately made the figuring of the tax by taxpayers a very difficult matter; particularly, where the taxpayer was a corporation employing a great many men, and spending a great deal of money, as well as individuals of all sorts and conditions. From year to year, since its inception back in 1913, this Income Tax affair has been made more complicated until today it is a highly intricate affair.

To "make confusion worse confounded" the Congress passed a Victory Tax and the collection and payment of this tax is going to cause many a headache for every taxpayer whether he has one employee or whether he has thousands of employees.

On March 15th of this year there will be due the first installment for 1942 income. Think of the thousands of workmen in this country who should pay this tax and who will not have the money with which to do it. Think of the tremendous number of workmen who earned in 1942 wages, the total of which for the year would have been regarded by this or that workman as an astronomical figure ten years ago. And think of the thousands of these workmen who have spent their wages from payday to payday without thought of what was going to happen to them on any future day. Many of them have spent it in riotous living. Many of them on March 15th won't have but a small part of the tax due that day. Many of them won't pay any attention to the Income Tax, not having any money

One Man's Opinion

By WALTER KIERNAN
(International News Service Staff Writer)

While Mr. Roosevelt was in Africa and Mrs. Roosevelt was in Canada, Henry Wallace was top man in Washington.

With Harry Hopkins also away there was nobody left in the White House and 10 bureaus immediately staked claims to space.

It isn't safe to walk away from a big house like that in Washington with so many stenographers taking dictation in the parks and executives waiting on curbstone anterooms.

Everybody in Washington suspected Mr. Roosevelt and Mr. Churchill were meeting. Everybody in London suspected they were meeting. Everybody in Berlin knew they were meeting.

Apparently there was a leak in the back fence gossip line but this was one secret we were glad to let the enemy have exclusively. He got no aid or comfort out of it.

The Great Game Of Politics

Vital Function Resumed

WASHINGTON, Jan. 28

THE ENTHUSIASTIC unanimity with which the House has recently approved resolutions to investigate various Governmental agencies is indicative of the difference between this Congress and those we have had for the past ten years. For that length of time the executive branch of the Government so dominated the legislative branch that the latter sank to probably the lowest level in our history.

ITS INDEPENDENCE and its initiative practically vanished. Save in the case of the attempted packing of the Supreme Court, it appeared powerless to resist the White House will. With few exceptions, hardly a bill of resolution which the Administration opposed was passed. The President absorbed its powers and to an unprecedented degree operated as though he owned it, as, indeed he did. House and Senate ratified, when required, the Executive acts and almost invariably obeyed the Presidential orders. Under these conditions, any such thing as a genuine investigation of a Governmental agency was impossible and those now ordered are the first real ones in a decade.

YET, the investigation of Governmental departments is one of the basic functions of Congress, the exercise of which is of great value to the nation, and without which there is no check upon waste, incompetence or dishonesty. In his able book, "A New Constitution Now," Mr. Henry Hazlitt, of the New York Times, points this out and emphasizes it by quoting from John Stuart Mill's "Representative Government," as follows:

"The proper office of a representative assembly is to watch and control the government; to throw the light of publicity on its acts, to compel a full exposition and justification of all of them which anyone considers questionable; to censure them if found condemnable, and if the men who compose the

LOOKING AT LIFE

—By Erich Brandeis

Why couldn't Dr. Chester S. Keefes of the Boston University School of Medicine have made his statement a little sooner?

Vaccines to prevent colds have proven a great disappointment he says. "There is good evidence that vaccines may produce little or no protection against diseases of the upper respiratory passages," he announces.

Here I have finished my seventh injection against colds, and now, says he, they aren't much good.

Of course, even without good Dr. Keefes, I had a sneaking suspicion that these injections may not be all my friends have told me.

But, having tried everything else, I thought I might just as well try them.

My doctor said:

"I don't know whether they'll help you. They do help about 50% of my patients. So it may be worth trying."

At the time I went to the doctor I had a tube of inhalant in my upper right vestpocket, together with a package of digestion tablets.

In the lower right pocket I carried a small bottle of aspirin tablets and my cigarette lighter.

In the upper left, nail file, comb and a box of cough drops and in the lower left three packages of matches (there was no fluid in the lighter) and a vial containing vitamin pills that were supposed to tone me up and make me "cold-resistant."

Before leaving the house in the morning I sprayed my nose with a yellow fluid, and after dinner I took a tablespoon full of red medicine to help my cough.

Just before retiring I squirted a smelly salve up my nose to keep it well lubricated during the night.

So, naturally, when Inez Robb, the noted writer, and other friends told me how much good the injections had done them, I immediately rushed to my doctor and said:

"Quick, doctor, the needle."

My cough is better now—well, at least it's louder, and instead of sneezing twice in a row, I sneeze four times, which, you must admit, is an improvement.

Oh, pardon me please, I must run over to the drugstore before it closes.

I need some more of that red medicine.

Bible Thought For Today

Give unto the Lord the glory due unto His name; bring an offering, and come before Him: worship the Lord in the beauty of holiness.—Chronicles 16:29.

EAST BROOK BIBLE CLASS HOLDS DINNER

Young Married People's Bible class of the East Brook Methodist church joined in the church dining room Wednesday evening for a tureen dinner event, with Mr. and Mrs. Paul Wasserman in the role of hosts.

A delicious full course menu was served at tables attractively arranged, with places being set for 16. Business followed, with the president, Pat Anderson, in charge, when their calendar of events was considered. An informal social period brought the program to a close.

On February 23, Mr. and Mrs. John Reiber, Lakewood, will entertain.

Two-Year-Old Tot Honored

Honoring their little daughter, Patty Carol, Mr. and Mrs. Robert Decker of King avenue, R. D. 2, entertained informally at a family event Wednesday evening, the occasion commemorating her second birthday anniversary.

The time was spent most informally, and a special guest sharing, was Irene Mitchell.

Lunch was served by the hostess at a late hour.

The honoree was presented with a number of dainty gifts.

Child Guidance Club

Mrs. John J. McIlvaine will be the speaker at the meeting this evening of the Child Guidance club at the home of Mrs. David B. Connery, 219 Clenmore boulevard.

Mrs. McIlvaine's subject will be "Two Parents".

FRIENDSHIP CLUB HONORS MEMBER

Mrs. Enzo Restivo, Butler avenue, was honored Wednesday evening by members of her club, the Friendship club, before her departure from the city.

Mrs. Restivo will join her husband in Macon, Ga., where he is employed.

An informal social hour was enjoyed and following a delicious lunch was served by Mrs. Paul LaScola.

Mrs. Restivo was a recipient of a lovely gift from the club members.

Bride And Groom Honored

Honoring Mr. and Mrs. Frank Kurdupski, bride and groom of Christmas week, 150 people gathered on a recent evening in the K. Pulaski hall, Oakland district, for dinner and an evening of dancing. Mrs. Kurdupski is the former Miss Sophie Mateja.

A number of out-of-town guests were among those present.

Mr. and Mrs. Kurdupski will make their home at 130 Oakland avenue.

T. L. T. Kensington

Members of the T. L. T. kensington were pleasingly entertained in the home of Mrs. Mary Rowland, Crawford avenue, Tuesday evening. The time was whiled away with sewing and conversation, and at a suitable hour, lunch was served. The hostess was aided by her daughter Mrs. F. M. Rowland.

Tuesday, February 8, members will meet with Mrs. J. L. Maxwell on Croton avenue.

E. S. 500 Club Meeting

Members of the E. S. 500 club were entertained Wednesday afternoon in the home of Mrs. G. B. Hoagland, Temple avenue, hostess. The group joined in a round of contests, with Mrs. C. E. Miller and Mrs. Frank Morgan prize winners. A special guest was Mrs. R. W. Harris.

Lunch was served at the close by the hostess, and plans were completed to meet for a similar party on February 10 with Mrs. L. W. Houk, Raymond street, hostess.

Daniel Leasure Auxiliary

Mrs. Emma Woods of 108 Hillcrest avenue entertained the Daniel Leasure Auxiliary No. 52 members recently, with the hours being spent enjoyably with games and conversation.

Mrs. Nellie Lewis and Mrs. Annabelle Wilson won the prizes. Following, the hostess served lunch, with her daughter-in-law, Mrs. Donald Woods, aiding.

On February 15 a banquet will be held.

Friday

We By, Mrs. Frank Hill, Wilmington avenue.

Friendly Friends, Mrs. Harry Cook, O'Brien avenue.

Bamboo 500, Mrs. Audra Steele, hostess at Mrs. C. Bishop, 923 Franklin avenue.

The Warden Shoots the Works

The local air raid warden of a small mountain village invented his own scheme for warning the community—but it didn't work very well.

Receiving the blackout order by telephone, he stepped to his porch and fired his shotgun. The shot severed a power circuit, which fell on the telephone wires and burned them through. The blackout was perfect, but for some hours the village had no lights, no power, no telephone service, no all-clear signal, plenty of confusion.

Since the whole civilian defense system depends so much upon swift telephone communication, telephone lines must be kept clear *during* and *after* air raid warnings. Please remember—for your own protection—when the sirens sound, don't use the telephone! The Bell Telephone Company of Pennsylvania.

Spell Victory With Bonds At Local School

Lincoln And Garfield Pupils Have Bought $1200 Worth Since Christmas

Since the Christmas vacation period, the word "Victory" has taken on a new meaning for pupils of the Lincoln and Garfield school. Every time the pupils sell $400 worth of bonds, a special program takes place in the auditorium, when the pupils tack up a letter of the word. During the past three weeks they have placed the first three letters on a chart, representing sales of $1,200 worth of stamps and bonds.

Those who participated in the last program were Julia Abdo, Billy Myles and Edward Cugini. Andrew Ludovici read a letter received from PFC Dante Fusco, now with the U. S. Marines, while Olga Fomka read a letter received from Paul Horney. These were in answer to letters written former students by pupils of the sixth grade English class.

Grades 4-2 and 2-2 won the banner for highest weekly sales, while grade 6-4 won the award for consecutive 100 per cent sales which now cover a period of five successive weeks. To date the pupils have purchased $6,519.60 worth of stamps and bonds.

Meat Rationing Likely In March

Charges Made That Widespread Violations Of OPA's Meat Order Prevail

By PHILLIPS J. PECK
(I. N. S. Staff Correspondent)

WASHINGTON, Jan. 28.—A high government official charged today that widespread violations of OPA's meat order were a major contributing factor to the current maldistribution of supplies and consequent critical shortages in some areas of the country.

At the same time, he expressed agreement with the statement of an OPA spokesman that there was little hope for an improvement in the present admittedly bad situation until consumer rationing begins sometime in March.

Referring to the order which limits civilian deliveries of beef and pork by large slaughterers to 70 percent of deliveries in the corresponding quarters of 1941, with the balance going to the armed forces and lend-lease, the official said:

"The order is breaking down all over the country. The small, so-called 'country slaughterers,' who are exempt from quotas if they killed less than 2,000,000 pounds in 1941, obviously are killing a lot more, and much of it is going into the black market."

He charged that as a result of the "leak," meat supplies are not going to the controlled slaughterers and mal-distribution has resulted, giving some areas sufficient stocks of meat and creating shortages in New York, the Pacific coast and other sectors.

The "black market" distribution of meat has been accompanied by similar operations on price ceilings, the official asserted.

Unusual Sentence For Tax Embezzler

Pittsburgh Court Gives Cashier In State Tax Office 364 To 728 Days

(International News Service)

PITTSBURGH, Jan. 28.—James L. Griffin, 62-year-old cashier in the state mercantile office here who pleaded guilty to charges of embezzling $9,250, was under sentence today of 364 to 728 days in the Allegheny county jail.

Griffin told the court that he had taken the money to care for his wife, who had been ill, and his aged mother, who at 93 is blind. The court made the unusual sentence of one day less than a year and two days less than two years so that it could retain supervision over Griffin's parole eligibility.

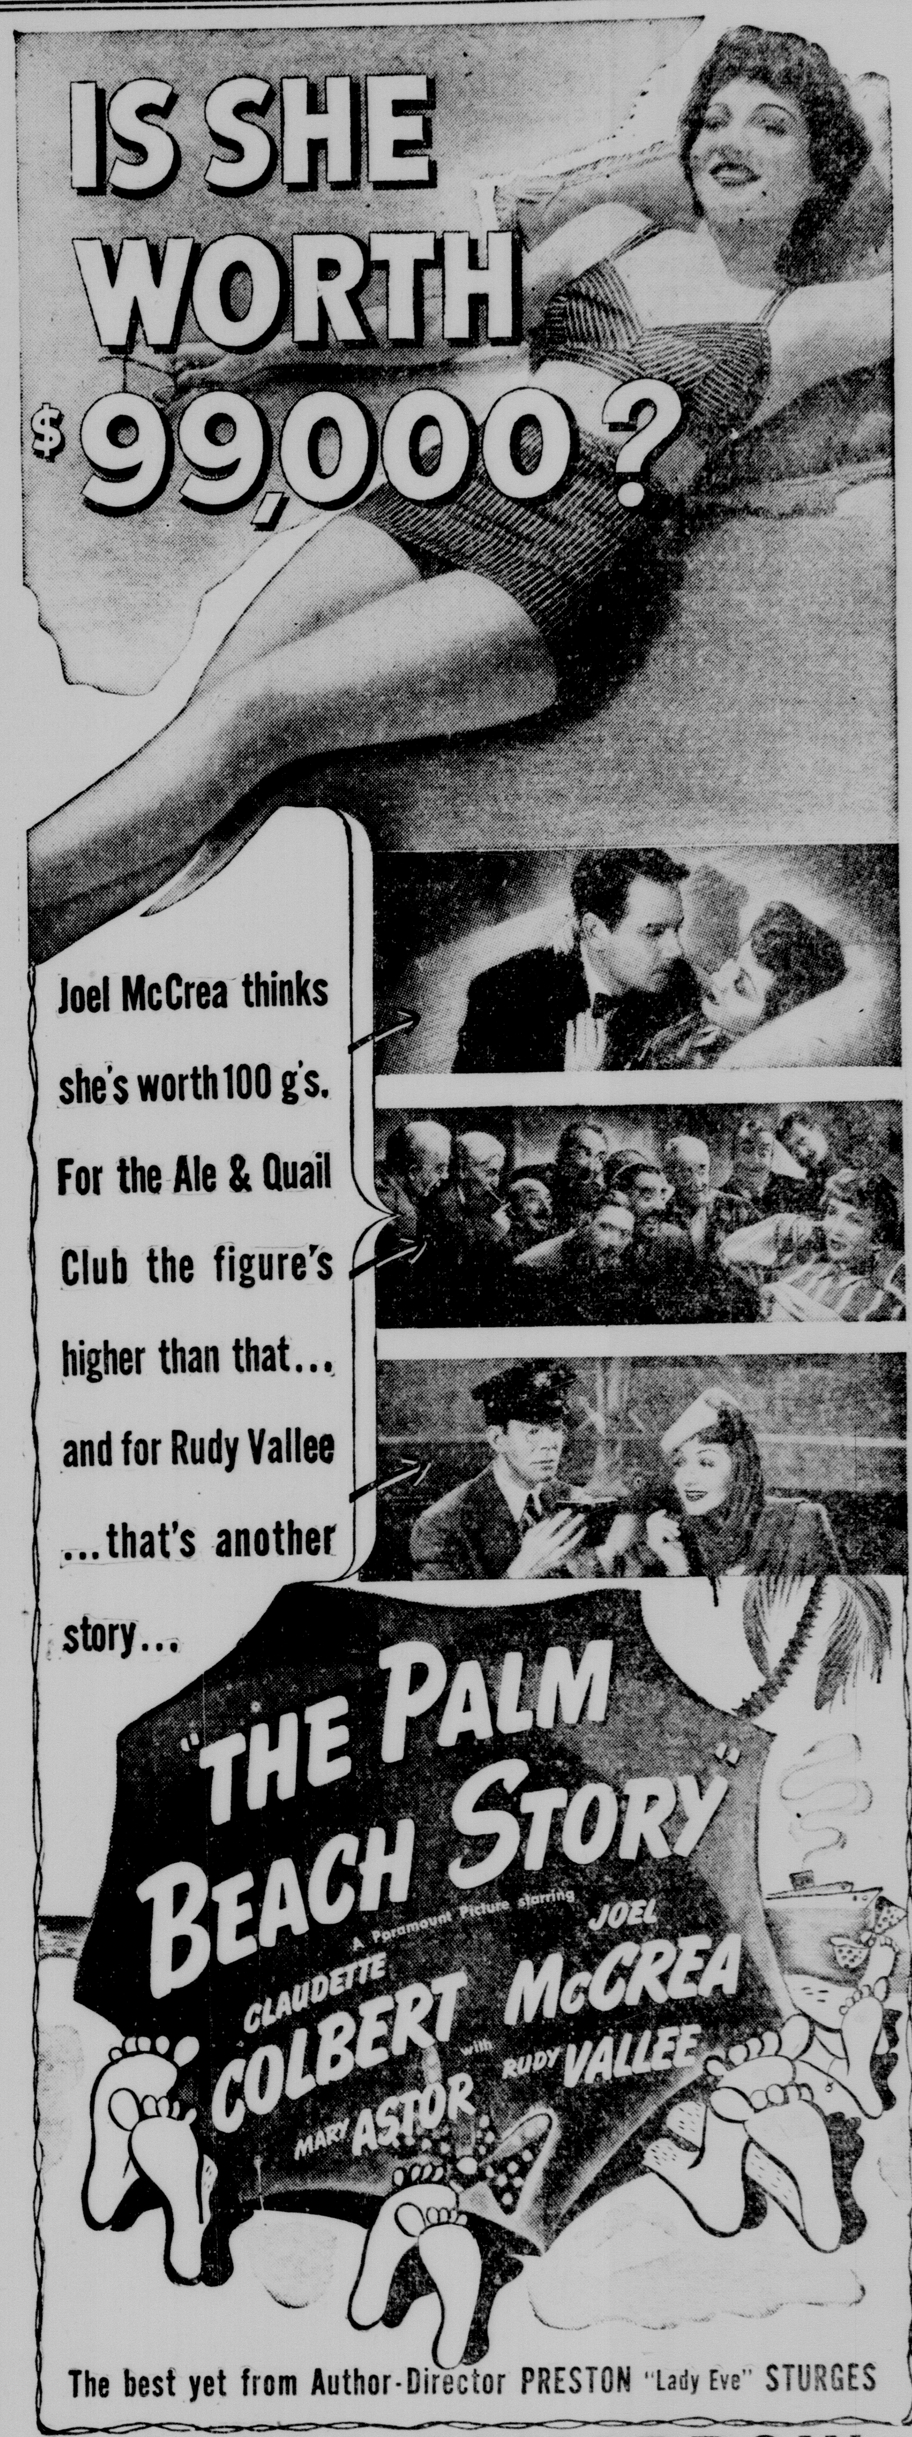

Judge John P. Egan specified that if the former cashier can make restitution, he may be released from jail. His attorney said the bonding company had paid $5,000 of the amount, and that Griffin's pension fund would account for $1,800 more.

If the body of a man weighing 150 pounds was put into a crucible and reduced to the substances of which it is made, it would be found that approximately 91 pounds would be water, 30 pounds would be protein substances, 15 pounds fat, and 1½ pounds would be glucose. The rest of the weight would be of mineral structure.

Relatives Here Receive Estate

(Special To The News)

NEW YORK, Jan. 28.—Most of the estate left by the late Miss Adela Berry Davidson of 651 Palisade avenue, Yonkers, goes to two relatives at 406 Highland avenue, New Castle, it was learned today when the estate was appraised by the New York state transfer tax department. The residuary estate, amounting to $11,800, goes in equal shares to Robert B. Stratton, Jr., grandnephew, and Evelyn Berry Stratton, grandniece.

Miss Davidson died at the age of 85 on October 31 last. She was a member of the Daughters of the American Revolution. Her estate was appraised at $19,887 gross value and $13,913 net.

GRATED CHEESE

Grate old pieces of cheese that have become too hard to eat, and keep in a covered jar in the refrigerator to use as needed on macaroni, etc.

SEVENTH WARD

CHAPLAIN HINNEBUSCH TRAINING AT HARVARD

James Fletcher of 318 West Madison avenue recently received a communication from Chaplain Michael P. Hinnebusch, who is now at Harvard university, Cambridge, Mass., for about a month, taking some special chaplain training work, after which he will return to Camp Gordon, Augusta, Ga., where he is stationed.

Chaplain Hinnebusch was formerly pastor of St. Margaret's church of West Clayton street, prior to going into the U. S. service last summer to serve as a chaplain. Says he is getting along fine, likes his work and gained about 15 pounds in weight. The chaplain stated that he was surprised and delighted to receive such a number of nice gifts at Christmas time from his friends and parishioners here. He wishes to be remembered to his friends.

CHRISTIAN ENDEAVOR ANNIVERSARY EVENT

Sunday, at the Madison Avenue Christian church, both the Senior and High School Christian Endeavor societies will have charge of the evening service, in commemoration of the 62nd anniversary of the founding of the Christian Endeavor movement. Ann Evans, president of the senior society, will be in charge of the service. The high school group will lead the devotional period. Paul Olson will give a violin solo. Thelma Bumbaugh, Mrs. Irene Liversage and Grace Kelly will make short addresses.

A Christian Endeavor banquet will be given in the church dining room Wednesday evening. Miss Frances Hammond is chairlady of arrangements.

AUXILIARY FIREMEN TO MEET

On Monday evening members of the auxiliary firemen of the ward will meet in the hall of the fire department on East Cherry street at 8 o'clock.

DAVIS CLASS DINNER

In the Mahoning Methodist church, the Davis Bible class will meet this evening at 6:30 for a tureen dinner and program. Miss Eleanor Blasdell and Miss Ina Cooper are the committee of arrangements.

SON ON FURLOUGH

Second Lieutenant Joe Wylie of Camp Pickett, executive department of the Medical Corps, is on six days furlough, visiting with his parents, Mr. and Mrs. Harry Wylie of 518 West Madison avenue.

SOLDIER VISITS UNCLE

Private First Class Harold B. Taylor, stationed at Aberdeen, Md., visited with his uncle, G. T. Wilson, 909 West Clayton street, while enroute to spend a week's furlough with his parents, in Mercer.

TRANSFERRED

Mr. and Mrs. W. W. Waid of West Clayton street have received word that their son, Private Walter F. Waid, has been transferred from Mines Field, Calif., to Fort Lewis, Wash.

SEVENTH WARD PERSONALS

Mrs. Sara Johnston, of 311 Newell avenue, has been admitted to the New Castle hospital, for treatment.

Paul Thomas of Detroit has joined his wife, who is visiting at the home of her sister, Mrs. Q. E. Davy, North Cedar street.

Mrs. Mae Keating, of 16 West Wabash avenue, has been taken to the New Castle hospital, where she will undergo treatment.

Billy and Sammy, sons of Mr. and Mrs. Henry D. Thayer, of North Liberty street, are confined to their home with an attack of grip.

Mrs. Belle Campbell of 312 North Cedar street, who was quite ill, is improving at the home of her son, Dr. Frank Campbell, Bessemer.

Miss Maria G. Dattilo, of Buffalo, New York, who underwent an operation at the New Castle hospital, is getting along nicely. Miss Dattilo is a sister of Mrs. Rose Themos, of Montgomery avenue extension.

What's What At A Glance

(Continued From Page Four)

reports concerning conclusions drawn from their various chats with him.

As to questionnaires, everybody is becoming familiar with them, as mid-March tax collection time approaches. You, dear reader, will have been getting your batch of interrogations recently. That they foreshadow monetary ruination to you does not require stating. But, in addition to that, they're a Chinese puzzle each.

You must be an expert accountant to understand one of them. And expert accountants run into money. They disagree likewise. Little peewees, like me, can't afford them. And then, if you hire one he differs from others.

The fact is that treasury authorities differ as to interpretations.

To tell the truth, the administration did not want the Ramspeck ventilation.

It reveals the bughouse character of executive management. Maybe it isn't MIS-management, but there is NO management about it, and it is impossible for it to claim that there is.

The bureaus cannot be classified except alphabetically.

ADA - FCC - OWI - FWA - GAO - I - A - D - B! That's just a handful of them.

Who's Boss Of What?

Nobody knows whom their respective heads are. They do not know among themselves. Telling them apart is impossible.

The WPB and the OPA notably are on the pan.

WPB, is alleged to be notably overmanned.

If, as per the Ramspeck committee's informants, this were just so infernally expensive, it would not be so serious, but the proposition is that it is positively deleterious to our effort.

It's an investigation designed to show, not crookedness, but fatheadedness, in the administration.

A few profiteers may be sideswiped, but they're not numerous.

In general, it has been an unusually respectable war, financially. There should not be any subsequent monetary scandals. It does not look like it now, anyway.

Some "war brokers" will be caught, maybe, but not numerously.

The Great Game Of Politics

(Continued From Page Four)

government abuse their trust, or fulfill it in a manner which conflicts with the deliberate sense of the nation, to expel them from office and either expressly or virtually appoint their successors."

AND MILL added that in a legislative body competent and alert to perform these functions "would repose at all times sufficient security for the liberty of the nation." After ten years in which the multitudinous Government agencies and commissions of the New Deal have been wholly free from Congressional scrutiny, the timeliness of reiterating the great truth in this Mill paragraph is clear. Certainly, the overwhelming vote by which these investigations were ordered is strong evidence that this new Congress, over which the Administration has lost control, intends to make up for lost time.

OTHER investigations are sure to come. Before this session ends, the belief is that every major agency will be subjected to Congressional overhauling. There is not one that will not be improved by having the light turned on it. They have been operating much too long behind their own publicity departments without anyone being able to get a clear idea of what they are doing or how. Efforts of individual Senators, like Mr. Byrd of Virginia, to dig out the facts have been hampered and frustrated by delays and evasions. Newspaper efforts are easily blocked. The only way by which the full truth can be obtained is through Congressional investigation and it is a good thing they are beginning.

THESE investigations do not mean any weakening of the war effort. They will not, if properly conducted, divert men from the important jobs of war production. They will not waste the time nor energy of the responsible officials. On the contrary, they ought to result in the correction of abuses, the coordination of effort and the simplification of the machinery. Fearless and searching inquiry by Congress, with the view of weeding out the incompetents and decreasing waste, is exactly what is needed in Washington. The mere threat of that kind of investigation—the knowledge that such investigations can no longer be blocked by Administration leaders, is certain to have a beneficial effect upon the executive branch from top to bottom.

The World and the Mud Puddles

with which to pay it—and what is going to happen? I thoroughly believe that the Income Tax is the very poorest way of collecting revenue for the government that has ever been devised.

The Sales Tax is a horse of another color. If the sales tax was imposed by the government upon the sale of every article of food, clothing, etc.—everything, so that the merchant selling would collect the tax upon every sale, the loss to the government would be very small. There would, of course, be merchants who would try to avoid the payment of the whole tax. There would be many merchants in arrears but in the aggregate the loss to the government would be comparatively small and every man Jack in the nation would be paying the tax. But this would not please the politicians who have multiplied the burdens of the Income Tax for the sole idea of punishing the successful citizens and protecting the unsuccessful. The Income Tax has been designed from the beginning to make the minority of the citizens of the Republic pay the bill and now that the tax is going to hit so many more thousands of citizens, it is going to be very interesting to see what happens.

A sales tax, or a transaction tax, if you will that would be a tax upon every sale, whether it would be a loaf of bread or an automobile; whether it would be upon clothing or upon the rent of a house or an apartment; whether it would be upon furniture or upon the sale of real estate, would raise, I believe, more money than any Income Tax that can possibly be devised.

March Fifteenth, Nineteen Hundred and Forty-three is going to be a terrible day, for not only the taxpayer, but everyone connected with the Treasury Department of the United States.

What Noted People Say

(International News Service)

CASABLANCA—President Roosevelt states United Nations goal: "Unconditional surrender."

WASHINGTON—Henry A. Wallace, vice president of the United States: "We can, if we will, make the post-war world exceed the pre-war world in abundance, jobs and happiness."

DENVER—Joseph E. Davies, former ambassador to Russia: "With the smashing of Hitler's resistance in Europe, the combined sea, air and land power of the allies will make short work of the Japs."

WASHINGTON — Capt. Eddie Rickenbacker: "If we do not hit the heart of Japan through the air, the war will last for many years."

Words Of Wisdom

We can be thankful to a friend for a few acres or a little money; and yet for the freedom and command of the whole earth, and for the great benefits of our being, our life, health and reason, we look upon ourselves as under no obligation.—Seneca.

Coal Price Boost Will Be Allowed

(International News Service)

WASHINGTON, Jan. 28.—The OPA announced today that bituminous coal prices will be increased within the next few days to make possible the operation of a six-day week in the mines and to cover production cost increases.

Officials said that coal prices will be increased approximately eight cents per ton to cover cost increases in production since ceilings were established last April, while the overtime increase for the sixth day will amount to approximately nine per cent of the labor cost for the present five day, 35-hour week.

Supervisors In County Session

Annual Convention Is Under Way At Court House—Badger Presides

AUDITORS ALSO SHARE MEETINGS

With few vacancies, the township supervisors and auditors of the county met today in court room number one of the Lawrence county court house in their 28th annual convention. The morning session got under way at ten thirty o'clock and the afternoon session at 1:15. President Samuel V. Badger presided at both sessions.

Sheriff Clyde D. Badger was scheduled to make the address of welcome for the county but was prevented from being present by the illness of his mother. His chief deputy, George Dean represented the sheriff and spoke briefly. President Samuel V. Badger replied upon behalf of the association.

Discusses Tax Sales

County Solicitor William McElwee, Jr., addressed the convention upon the subject of tax sales and in the short time he took gave the supervisors and auditors a complete picture of the tax sale situation. He told them of the necessity of seeing to it that due consideration was given to offers in compromise of tax liens when a property is sold and went into the method of collection of county taxes.

County Commissioner William R. Walton followed Mr. McElwee, and said that the board of commissioners was ready at all times to aid the supervisors in the problems that beset them. A roll call followed Mr. Walton's remarks.

State Speaker

H. A. Thompson, secretary of the State Supervisors' Association was present and spoke upon legislation that will be presented this session of the General Assembly to aid townships. The program of legislation is varied and if passed and signed would add to the latitude of the supervisors authority in townships. The appointment of committees came just before lunchtime adjournment.

Scheduled this afternoon were Ernest Trimble of the State Highway department, State Senator J. K. McQuiddy and Representatives James C. Brice and W. Sharp Fullerton. M. L. Newton and Roy B. McFarland, who were delegates to the state convention in February, 1942, were scheduled to give their reports and Mr. Thompson was scheduled to close the meeting as the last speaker. Resolutions and the election of officers was the last order of business.

New Meeting Of Allied Military Heads At Algiers

(International News Service)

LONDON, Jan. 28.—Reuter's News Agency today picked up an N.B.C. broadcast from Algiers reporting a new Allied military conference at Allied headquarters.

Those present, the broadcast said, included United States Chief of Staff Gen. George C. Marshall, Lieut. Gen. Dwight D. Eisenhower, Admiral Ernest J. King, British Gen. Sir Harold R. L. G. Alexander and Admiral of the Fleet Sir Dudley Pound.

CARNEGIE HERO FUND AWARDS 14 MEDALS

(International News Service)

PITTSBURGH, Jan. 28—The Carnegie Hero Fund commission at its 39th annual meeting today had awarded bronze medals of valor to 14 heroes and heroines.

One of the heroines who sustained injuries, received disablement benefits of $250 and a pension aggregating $360 a year. In 12 other cases, awards totalling $4,250 were made for educational purposes, the purchase of homes, or other worthy purposes. Payments in these cases, however, will not be made until the beneficiaries' plans for use of the awards have been approved by the commission.

News And Views From Pennsylvania Capital

(International News Service)

HARRISBURG, Jan. 28.—While the inaugural ceremonies of Gov. Edward Martin moved with precision after being switched from an open air stand to the forum of the forum of the educational building at the state capitol, the inaugural committee has been the target of criticism by visiting Republican leaders. At the suggestion of Republican state chairman M. Harvey Taylor, the committee called off the outdoor ceremonies two hours before noon because of rain. . . Just when the inaugural started in the forum, the clouds disappeared and the sun appeared. . . Inaugural visitors couldn't understand why the committee didn't call the U. S. weather bureau, located in the state capitol, to find out if the rain would continue.

The governor also has been criticized because he permitted the change in inaugural plans. . . At first, he said the ceremonies would be held outside if the weather was fair and inside if it was inclement. He later changed the order and said the affair would be held outside despite the weather in order that thousands of visitors could witness the ceremonies. . . The last-minute switch deprived thousands of persons of the privelege of seeing a governor inaugurated. . . Unaware of the change in plans, they were waiting patiently in front of the inaugural stand as the ceremony proceeded in the forum, several blocks away.

Governor Martin and the inaugural party held a public reception in the rotunda of the main capitol after the inaugural. . . The governor shook hands with more than 2,000 well-wishers and was still in the running when his companions had ceased shaking hands and started to nod and say "hello" after their hands began to swell. . . The party stood in front of the wide marble staircase for the reception. . . The department of property and supplies had provided a floral backdrop of more than 300 plants which blanketed the stairs. . . The governor later directed that all the flowers used in the inaugural ceremonies be sent to the camp hospital at the Indiantown Gap military reservation.

Old Tojo Has New Pipe Dream

(International News Service)

LONDON, Jan. 28—Japan has laid the foundations for victory and will continue the fight until the United States and Great Britain are forced to surrender, Premier Hideki Tojo told the Japanese Diet at the resumption of its sessions, according to a Tokyo's broadcast heard today by Reuter's.

"Japan, in closer co-operation with its (Axis) allies, will carry on offensive operations until the United States and Great Britain are forced to give in," Tojo declared. "Our dispositions for both offense and defense have been completed. Thus have the foundations for certain victory been laid."

Sessions of the diet were resumed after a brief postponement due to Tojo's reported illness.

ERSATZ MEAT PATTIES DELIVERED BY MAIL

(International News Service)

ENGLEWOOD, N. J., Jan. 28—And now ration-harried American can have meatless meat patties—delivered to front or back door by mail!

The new concoction is being offered by the firm which startled juice-consuming Americans by making available fresh grass juice as a breakfast beverage.

Oh yes, the ersatz meat patties are made of cooked rice, onion and beets, mixed under pressure with raw almond butter and fresh egg yolk. Celery seed is used for seasoning.

Start Pay-As-You-Go Hearings Next Week

(International News Service)

WASHINGTON, Jan. 28—The House ways and means committee today decided to start hearings on pay-as-you-go tax legislation next Tuesday, but all indication were that there is little chance such as program can be put into effect before June 15.

Following an initial meeting by the committee, Chairman Doughton (D. N. C., said it was probable that only pay-as-you-go, and collection-at-the-source policies would be considered, but it unlikely that the problem of raising an additional $16,000,000,000 requested by President Roosevelt would be tackled before "well into the summer."

Answer Two Fire Calls Last Night

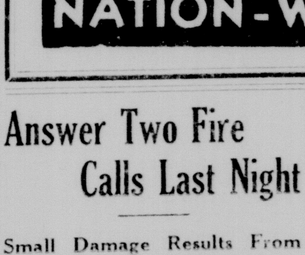

Small Damage Results From Blazes Wednesday Evening; Aid Burned Woman

City firemen answered two calls Wednesday evening for small fires.

At 7:50 p. m., they were summoned to 829 West State street, when employes siphoning gas from a car to use in priming the carburetor started a blaze, which caused $50 damage at the used car establishment of Sol DiLullo.

At 8:55 p. m. they were called to the rear of 106 Phillips street, where a kids' shanty was on fire.

Early in the afternoon, firemen were called when Mrs. Rose Izzo of 505 Lutton street, was seriously burned when her dress caught fire from an open gas flame on the kitchen stove. No other fire was found in the home, but firemen gave valuable first aid treatment to Mrs. Izzo, before medical attention arrived.

Scales Fail To Heed Warning Of Mayor

James Scales, colored, and about 30 years old, didn't weigh Mayor Charles B. Mayne's instructions when he faced His Honor in police court yesterday. He was charged with being a suspicious person and was instructed to leave the city. He did not do so and today was in jail again, hence a sentence of 30 days in the county jail was imposed. Scales calls New York state his home.

President Is Criticized For Trip To Africa

Mayor Jeffries Of Detroit Expresses Annoyance With Casablanca Conference

(International News Service)

DETROIT, Jan. 28.—Mayor Edward J. Jeffries sharply criticized President Roosevelt on Wednesday for his air trip to North Africa where he conferred with English Prime Minister Winston Churchill regarding policies of the Allied war effort.

At a press conference, Jeffries asked "what was the president doing in Africa. Is he trying to run the whole darned war.

"He seems to be developing a mania for traveling long distances to conferences. Also, he seems to be wanting to compile a lot of firsts.

"The whole thing strikes me as a world-wide publicity blurb which accomplished nothing.

"The cutest figure of them all, and the only one who had sense enough to stay home and tend to business was Stalin."

Jeffries has never declared himself as either a Democrat or Republican. He was elected on a non-partisan ticket.

OCD NOTES

Activities Of OCD Workers Are Outlined Here

Three distance audible signals are provided in uniform new air raid and blackout regulations which after February 17 will give Pennsylvanians and other residents of seaboard states some advance notice, whenever possible, that an air raid is probable and that they should be prepared.

Here they are:

1—Preliminary "Blue" signal, a steady blast of sirens for two minutes, meaning there is a probability of an enemy air raid because enemy planes have been detected heading toward the area.

2—"Red" signal consisting of a series of short, intermittent blasts of sirens and meaning that the enemy planes are "practically overhead."

3—Another "Blue" signal, consisting again of the two minute steady blast, meaning that the enemy raiders have left the immediate vicinity but may return and that a state of alertness and almost complete blackout must conform.

There is no official "all clear." The long, steady blast, which has up to now indicated the "all clear," will be used exclusively after February 17 as a warning of probable danger. Turning on of street lights will serve as the signal that the community can return to normalcy.

EQUIP STATION WAGON

City OCD station wagon will be equipped with regulation black-out material for the purpose of demonstrating how autos should be equipped it was announced today. Any precinct group which desires to see the wagon for the purpose of equipping any vehicle necessary during a black-out can telephone 6586 and the station wagon will be taken to the precinct command. Head and tail lights must be masked and the car must carry a pennant and the car must carry a pennant, carried.

ATTENDANCE POOR

A report states that the attendance at the Wednesday morning OCD class in city hall has been poor.

Only a few persons will be given a hearing Friday night in city hall because of reported black-out violations. None were serious, it was stated.

Senior air raid wardens, rescue squad president, leaders in decontamination and other OCD branch heads may telephone reports of group activities to the OCD office, it was stated.

Raids On Burma Are Successful

American And British Bombers Blast Railroad Yards At Mandalaya

(International News Service)

NEW DELHI, India, Jan. 28.—American and British bombers blasted a variety of enemy targets in Burma Monday and Tuesday night with good results.

In daylight, a United States army air force communique revealed on Wednesday, American bombers blasted concentrations of rolling stock in railroad yards at Mandalay and enemy communication lines in northern Burma.

At night the Royal Air Force dropped several tons of bombs on runways and dispersal areas of the Japanese airdrome at Toungoo, 150 miles north of Rangoon. British planes also damaged water transport on the Chindwin river and off the Arakan coast and attacked a Japanese-occupied village in the Akyab area.

The American raiders seriously damaged a bridge at Shadup, bombed a steep embankment at Meza, where traffic was interrupted, and bombed and strafed a moving train, a roundhouse and rolling stock at Naba Junction.

On Monday, a formation of American fighter planes made a low-level attack on Naba Junction and hit eight engines, the American communique said. Supplementary information concerning the raid on Rangoon Sunday revealed that an enemy vessel was set afire by a direct hit.

High School Pupils Make Plane Models

Work Of Making Models For Navy Use Undertaken By Students

Making of all types of true-scale plane models to exacting specifications for use by the United States Navy is a project on which a group of high school boys and girls are now working under the supervision of Miss Adeline Miller of the high school faculty.

The models are not only of United States planes, but of all countries, so that 12 to 15 different ones are being constructed.

The work is of a tedious, exacting and pains taking nature and the boys and girls who are helping in this job for Uncle Sam have made plane models of their own before.

Those who are engaged in it at high school are Joe Wagner (who roughs out the models in the machine shop at Ben Franklin), John Matsko, John Woods, Bob Matthews, Clara Zarilla, and Katherine Fratz.

Progress is slow because the models must be accurate—nothing less than perfection will do. With the limited amount of time that the students can spend on this work, two weeks is about the length of time it takes for each one to turn out a perfect model.

State Increases Soybean Acreage

Pennsylvania Farmers Respond To Government Need With 40 Per Cent Increase

HARRISBURG, Jan. 28.—Response of Pennsylvania farmers last year to the government's need for soy-beans to fight the w[illegible] was a 40 per cent increase in acreage for all purposes and a 133 per cent increase in acreage for beans, according to the federal-state crop reporting survey released by the Department of Agriculture.

Normally the acreage of soybeans in the state has been about 33,000 acres, four-fifths of which were harvested for hay. The growing popularity for the crop, without the war stimulus is shown by the increase from around 7,000 acres in 1924 to 77,000 acres in 1941. Total acreage of soybeans for all uses in 1942 was 108,000 acres. Average yield per acre of beans was 17 bushels and of hay 1.80 tons compared with 14 bushels and 1.55 tons in 1941 and 16.2 bushels and 1.48 tons as the previous 10-year average. Production last year of beans is placed at 595,000 bushels and of hay at 90,000 tons compared with 225,000 bushels and 76,000 tons in 1941 and the previous 10-year average of 78,000 bushels and 39,000 tons. Between the years 1934 and 1939 the number of growers of soybeans slightly more than doubled and the number of farmers harvesting soybeans tripled. Government requirements for greater production of fats and oils used to meet the demand of the war emergency and the price stabilization plan for beans used in oil extraction encouraged farmers last year to expand soybean acreage, particularly their production of beans for crushing.

Many of those reporting on the soybean survey this year are first-time growers and the following summary of comments may be of interest. Eighty-five per cent of all those answering replied that they considered soybeans a profitable crop. Of those who harvested soybean hay 19 growers in 20 considered the crop profitable. In the case of those harvesting for grain four out of five considered the crop profitable. Three out of four who utilized their acreage exclusively for grazing and plowing under considered soybeans profitable.

Farm Problems Told Kiwanians

County Agent H. R. McCulloch Delivers Interesting Talk Wednesday Noon

HAS IMPORTANT JOB DURING WAR

Kiwanis club members were given an insight into the problems confronting the farmer at their noon luncheon meeting Wednesday in The Castleton when County Agent H. R. McCulloch, of the Lawrence County Agricultural Extension association, told them of some of the vicissitudes of farming.

Whereas the average investment per agriculture worker in the United States is approximately the same as in industry, the capital required for plant and equipment used by the industrial worker is provided by investors, while the investment in farm, livestock and equipment on the farm is usually financed by the farm operator.

Food production is just as important toward winning the war as the production of planes, tanks, guns and ships, Mr. McCulloch pointed out, but the farm effort is constantly diminishing because of shortages of farm labor, machinery and farm supplies.

While approximately 22½ per cent of the people of the country are engaged in agriculture, this group only receives 13 per cent of the national income, and farm labor is becoming a skilled occupation due to the introduction of mechanical equipment on the farm.

Farm prices are now 50 per cent above the pre-war basis, but costs are 52 per cent above this figure, so that parity, as it is termed when farm prices are as high as farm costs, and which is said to exist now, actually means a loss to the farmer because he cannot hire labor on that basis.

Unless something is done to provide the farmer with enough labor to man his farm during the coming year, the farm effort is going to be far short of the goal set for it next year, McCulloch predicted.

Kiwanis club members will go to Rochester on Monday evening, Feb. 1, when the Rochester Kiwanis club will be constituted. The local club will present the Rochester club with a Kiwanis banner, the presentation speech to be made by President J. J. Alexander.

Large Delegation Of County School Heads At Meeting

Discuss Subject Of Adjusting Public Schools To War Effort

County Superintendent of Schools John C. Syling, and Assistant County Superintendent Roy F. Conway, headed a large delegation of county school principals who attended a conference of school leaders from the local district at Slippery Rock State Teachers College, Tuesday.

The subject of adjusting the public schools to the war effort was discussed, the speakers bringing back information secured at a state wide meeting held in Harrisburg the previous week, and the delegates who attended the previous meeting reported back on the subjects discussed.

Acceleration of the school work, particularly in the high schools, health and physical education to prepare students for the war effort, transportation, employment of children, and teaching supplies were among the subjects taken up.

Those in attendance from the county school system, were Chandler McMillin, of Bessemer; Milton Pattison, of Union township; Glen Johnson, of Shenango township; Irvin Holmes, of Wampum; Ralph Watson, of East Brook; R. M. Corbett, of Harlansburg; Claire Smith, of Plaingrove; and J. Ellis Bell, of Ellwood City.

Explains Visit Of Farm Committee

Two Important Objectives Are Listed By USDA War Board Chairman Fulkman

The 1943 farm mobilization visit by a community committeeman to every farmer in the county has two important objectives, according to Dorris L. Fulkman, chairman of the Lawrence County War board of the United States Department of Agriculture. These objectives are to help the farmer meet his share of the county food production goals, and to find out what assistance he may need in turning out the greatest possible amount of farm products.

The committeeman will be expected to discuss the farmer's operations and under what conditions his production might be increased. The committeeman is expected to learn the definite labor requirements of the farmer; what his working relationships might be with his county rationing boards, or with the Selective Service board; and what part he would be interested to take in a local program for the sale, exchange or repair of farm machinery.

On the other hand, the farmer should become acquainted with the extensive programs that are being developed by the Department of Agriculture to overcome farming difficulties caused by the war. However, Mr. Fulkman added, continually changing conditions make necessary constant changes in the different programs.

Souderton Pants Company Partners Get Prison Terms

(International News Service)

PHILADELPHIA, Jan. 28.—Paul Waitsman, 44, and Max Apfelschnitt, 66, partners in the now closed Souderton Pants company at Souderton, Pa., were given prison terms Wednesday afternoon for embezzling 2,500 army pants and 750 yards of army cloth while their firm was working on a government order.

Waitsman, father of four children, was sentenced to a year and a day, and Apfelschnitt, one of whose grown sons is in the army, was sentenced to six months. Apfelschnitt escaped with a lighter sentence, the court said, because of his advanced age and the fact he has a heart ailment.

In imposing sentence, Judge Welsh denounced war profiteers and "chiselers" and commended congress for starting investigations which, he said, were "bringing out frauds by men in high places who are conspiring and combining to get everything they can out of the war."

If the frauds hadn't occurred before the United States entered the war, Judge Welsh said the prison terms would be five times greater.

Some High School Seniors Are Already In Colleges

Nine members of the January division of the New Castle senior high school graduating class of 1943, which will receive its diplomas Friday evening at the Scottish Rite Cathedral, have already begun their college studies, and nine more expect to leave for college within the week; two boys are in army service, and the draft numbers of others are coming up soon. A number of the class already have jobs.

Eleanor Chapman, Judd Healy, Robert George, and Bob Hirtzel have completed almost a month of their first semester of Penn State's accelerated college course. Kenneth Scheppele and Joseph Vogan both graduating from high school with honors in the academic-technical course, have been studying at Carnegie Tech for over three weeks. Two more academic-technical honor students, William Eckles and Robert Dufford, registered as freshmen at Grove City nearly two weeks ago. Marjorie Howe has begun work at Indiana State Teachers College.

Thomas James Robinson and Samuel Pete Rozzi are serving with the armed forces. Ed Joseph and Jack McCarthy, president of the class, Paul Grossman, Don Withers and Adolph Scilla expect to begin army service soon, and they will undoubtedly be followed in the near future by others in the class of January, '43, as their draft numbers come up.

Among those who have entered Westminster are Harold Yost, Jack McKeever, Bob Johnson and Harry King Bell. February 3 will see Bill Devlin and Bob Calvin at Pitt for orientation week there. Alan Barnette will enter Slippery Rock State Teachers College next Monday, where he plans to take up physical education. Marian Waddington is enrolled at Western Reserve. Lois Leach leaves Sunday for Hiram College. Idagenne Mitchell will study music at New York University and Andrew Lisko will continue with his music at Youngstown College.

Several members of the class plan to take a post-graduate course at the high school for the second semester of the school year, among them, Gene McIlvaine, Marjorie Allen, Virginia Harlan, Betty Casacchia, Margaret Clement, Pat McClurg, Kathleen Angelillo, and Anna Giamarino.

Among those who are at work on full-time jobs, or will be soon, are: Patricia Brown, Joanne Louer, Ruth Morrow, Betty Stritzinger and David Moses.

AROUND CITY HALL

City painters have begun improving a third floor room in city hall which is being used by municipal health authorities to examine persons who are engaged in handling food or beverages. Approximately 750 have already been examined.

Likelihood is that Mayor Charles B. Mayne will soon request that the police courtroom will be improved in appearance soon. It is likely the walls will be scrubbed and the floor work also cleaned. Many people call there every day. It is a drab appearing place now.

City hall is a busy place. Other business beside that of the municipality is carried on there, for instance: State highway welfare hearings; National Labor Board hearings; compensation hearings and OCD sessions.

PAIN

Pain is one of the most valuable things provided by nature. Pain is a red flag. It is an indication that there is something wrong. When a person gets a pain, he should investigate to find what causes it. Usually when the cause is removed, the pain stops.

The people of our country use a lot of medicine for pain. Instead of finding the cause of headache or backache they take a pain tablet. The cause is not found. The trouble is not remedied.

Suppose that a person feels a pain in his foot. He does not investigate but takes a pill. He later finds a piece of cinder in his shoe

Suppose he has a pain in his eye. He puts drops in it. Later he finds that he has a piece of steel in it.

He has pain in his side. He thinks he has a cold or rheumatism. He finds out that he has a broken rib.

He has a pain in his stomach. He takes soda and all sorts of stuff to stop the pain. Finally his doctor tells him that he is allergic to a certain food. He stops eating the food and the pain is gone.

He has a pain in his belly. He takes peppermint and indigestion pills for months. Finally he gets a doctor to look for the trouble. He finds out that he has been suffering from cancer and has let it go too long.

Pain is a good thing if we use it right.

Charge Farmers Pay High Price For Machinery

Inflated Price Of Second Hand Equipment Caused By Insufficient Allotment

(International News Service)

PHILADELPHIA, Jan. 28—Pennsylvania's farmers are paying "incredibly high" prices for second hand machines and equipment because only two per cent of the nation's steel production has been allotted to meet all agricultural needs it was charged today.

The Pennsylvania agricultural information committee cited the example of a Berks county farmer living near Virginsville who recently sold a single-row potato planter for $44. He paid $3.50 for the same planter at a public sale last spring, the committee pointed out.

"Shortages of machinery and the slow, sometimes fruitless job of getting repair parts constitute one of the most serious bottlenecks in the state's food production program," declared executive secretary of the Pennsylvania farm bureau federation, R. N. Benjamin.

"These vital repair parts must be immediately available to farms during planting, cultivating and harvest months to prevent serious crop losses due to machinery breakdowns.

Nazis Admit Sixth Army Near End

German Communique Insists Part Of Troops Still Fighting In Stalingrad

(International News Service)

BERLIN, Jan. 28—(By Official German Wireless)—In a communique which admitted the virtual liquidation of the German troops trapped at Stalingrad, the Nazi high command said Wednesday that "parts of the sixth army which still are capable of fighting are sticking to the debris of the town of Stalingrad."

"Utilizing all the possibilities of defense against uninterrupted attacks by the Soviets on the ground and in the air, they are keeping engaged several Soviet armies," the communique said. "An enemy detachment which penetrated into the town was smashed in the course of bitter fighting."

Repeated enemy attacks against new German defense positions west of Voronezh and in the Lake Ladoga area were repelled, the Nazis claimed. At one place in the "battle of Lake Ladoga," as the high command referred to it, "heavy Soviet tank and infantry attacks were repeated ten times."

German planes were said to have shot down 97 Russian planes south of Lake Ladoga in the past five days.

Nine Allied planes were claimed shot down in raids on the occupied territories of western Europe.

In North Africa, there was only scouting activity, the Nazis said.

Major Reed Gets Fine Promotion

In addition to receiving a promotion from captain to major, Dr. Jay L. Reed, prominent local dentist, has been given a great amount of additional responsibility, he revealed today in a letter to his wife.

Major Reed is chief dental surgeon at the Station Hospital, Fort Story, Va., and assistant dental surgeon of harbor defense, Chesapeake Bay. He has been in service for approximately a year.

Big Drop Here In Parking Receipts

Parking receipts here are not proving as good as last year. A three weeks deposit of nickels has brought the city only $1,150, according to City Treasurer C. C. McKibben. Former 10-day collections averaged approximately $750. The situation is ascribed to gas rationing.

KIDNEYS MUST REMOVE EXCESS ACIDS

Concert Of Negro Spirituals Sunday

Three Groups Of Negro Singers To Be At St. Luke's And First Christian Churches

A festival of old familiar Negro spirituals will be sung by three groups of Negro concert artists here on Sunday. Nationally known for their singing on the radio, the "Shields Brothers Gospel Quartette" of Cleveland, the "Kings of Harmony" of Birmingham, Alabama, and the "Sons of Liberty" of Sharon, will be heard at St. Luke's church on Elm street at 3 p. m. and at the First Christian church on the Diamond at 8 p. m.

It will be a chance to hear spirituals sung as they should be, by the people whose ancestors made the songs. Only Negro voices can do justice to the spiritual.

The program is under the auspices of the Women's Home and Foreign Missionaries of St. Luke's church, for the benefit of Livingstone College and Hood Theological Seminary in North Carolina, A. M. E. Zion schools.

Doors will be open at 2:30 p. m., Sunday, at St. Luke's and at 7:30 at the First Christian church.

Food for Freedom's Lifeline—

THE ELECTRIC WIRE!

Today, the American Farmer is producing "Food for Freedom" in overwhelming quantities . . . to feed our fighting men, our allies and Americans at home. America can do the job . . . because America has the electric power to do it. Electricity's labor-saving is a boon to farmers in these days when farm labor is a crisis. Electricity is on the job at the farm; in the home, and in our war production factories. Its low cost and wide uses make it a vital factor in our effort to obtain Victory.

Councilmen To Discuss Diamond Bulletin Board

Recreation Board Proposes To Try And Arrange "Spray Lake"

Although council held no regular meeting in city hall Wednesday the city law-makers met in Mayor Charles B. Mayne's private office to pore over various problems which sooner or later may come before council meeting.

One of the questions which they will decide is whether or not to erect a bulletin board in honor of boys and girls in the service on the Public Square. Some time ago Safety Director D. O. Davies said he favored one and no doubt other councilmen will favor the plan.

Director of parks J. D. Alexander is in charge of city grounds and it is probable that he will coincide with the views of those who believe that a bulletin board containing the names of city service boys and girls should be located at the advantageous Public Square spot.

Favor "Spray Lake"

It was also stated in council circles today that the Recreation board proposes to try and make a community rink for ice skaters on the George Washington junior high school athletic field.

The spray method would be used; that is water would be hosed at night over the field and each succeeding night more water would be sprayed. It may prove alright and again it may not but the recreation board, according to council wants to take the chance so it isn't likely there'll be any check.

ROOSEVELT'S PILOT WAS ST. LOUIS MAN

(International News Service)

LONDON, Jan. 28.—Captain W. J. Vanderkloot of Florida, a former resident of St. Louis, Mo., piloted the huge transport plane in which President Roosevelt flew to Casablanca for his meeting with Prime Minister Winston Churchill, it was learned Wednesday.

Vanderkloot, a veteran in service, handled the controls during the 10,000 mile round-trip journey without a mishap. His craft was protected at all times by hundreds of fighter planes.

Jesus The Bread Of Life

Highlights On The Sunday School Lesson

The Golden Text

Miracle of the loaves and fishes

"Jesus said unto them, I am the bread of life."—John 6:35.

By NEWMAN CAMPBELL

(The International Uniform Lesson on the above topic for Jan. 31 is John 6, the Golden Text being John 6:35, "Jesus said unto them, I am the bread of life.")

After the scenes in our last lesson, Jesus went over the sea to Galilee. A great multitude followed Him because they had seen the miracles He did.

Jesus went up into a mountain and sat there with His disciples. St. John tells us that it was near the time of the feast of the Passover. Jesus saw the great numbers of people, and said to Philip, "Whence shall we buy bread, that these may eat?"

St. John explains that Jesus knew what He was going to do, but asked the question to prove Himself.

Philip said, "Two hundred pennyworth of bread is not sufficient for them, that every one may take a little."

Andrew, Simon Peter's brother, told Him that there was a lad which had five loaves and two small fishes, "but what are they among so many?" he asked.

Told to Seat Themselves

Jesus told them to make everyone sit down, but as there was much grass in the place, the men sat down, leaving free space for the women and children so the disciples could pass among them to give them food. After all had eaten as much as they wished, Jesus commanded that the broken pieces be gathered up so that nothing would be wasted. The remainder of the food was gathered up, and it filled 12 baskets.

When the crowd saw this miracle, they said, "This is of a truth that prophet that should come into the world."

Jesus, perceiving that these people would undoubtedly take Him by force to make Him an earthly king, departed into a mountain alone.

It was now evening, and the disciples desired to go across the sea to Capernaum, but Jesus had not returned from the mountain, where He undoubtedly went to pray. The disciples started without Him, but the sea arose and a great wind blew. Then they saw Jesus walking toward them on the water, and they were afraid.

But Jesus said to them, "It is I; be not afraid." Then they willingly received Him into the ship and immediately it was at the land.

The next day when the people found they had gone, they followed them across the Sea of Galilee, "And when they had found Him on the other side, they said unto Him, Rabbi, when camest thou hither?"

Jesus could read their minds and said, "Verily, verily, I say unto you, Ye seek me, not because ye saw the miracles, but because ye did eat of the loaves, and were filled."

Then He told them not to labor for earthly food that was likely to perish, but for spiritual meat which would endure unto everlasting life.

"What shall we do, that we might work the works of God?" they asked Him.

"Jesus answered and said unto them, This is the work of God, that ye believe on Him whom He hath sent." The people asked for a sign "that we may see and believe Thee? what dost Thou work? Our fathers did eat manna in the desert; as it is written, He gave them bread from heaven to eat.

"Then Jesus said unto them, verily, I say unto you, Moses gave you not that bread from heaven; but My Father giveth you the true bread from heaven."

Followers Doubt

As Jesus talked to them, explaining that He was the bread of life of which He spoke, and that if they partook of Him and believed in Him, they would not perish, but live, some murmured, saying, "Is this not Jesus, the son of Joseph, whose father and mother we know? How is it then that He saith, I came down from heaven?"

He taught them things in the synagogue and in Capernaum, but afterwards many of His followers murmured against Him, saying, "This is an hard saying; who can bear it?" Many of His disciples "went no more with Him."

To the chosen 12 Jesus said, "Will ye also go away?"

Simon Peter answered, saying, "Lord, to whom shall we go? thou hast the words of eternal life."

Jesus answered that He had chosen the 12, but that one of them, even of His chosen, would at last betray Him.

IS YOURS A V HOME?

Here is the test of the Victory Home:

Is it clean, bright and cheerful . . . a place of refuge for those who are working hard?

Are house repairs and paint jobs attended to promptly, since neglect always means costlier repairs later?

Is everyone in it doing something to help win the war?

Is everyone in it buying War Stamps and Bonds?

Is every bit of food being utilized . . . using leftovers in appetizing ways?

Are tin cans, old metals, fabrics, and other salvagable materials saved for war needs?

Do you, who manage your home, patch, repair, mend, remodel, everything you can?

Do you plan expenditures with care, so that every penny does its job?

Do you shop only where you can get the best for your money—where, year after year, you have learned to depend on quality and sound value?

Do you buy your large-cost items on the Lay-Away Plan, so that your expenditures may be spread out thin, to keep budgets balanced, and War Bonds flowing into the house?

These are all marks of the V home . . . and it is our V homes that are doing much toward winning the war.

CRAINE-CATHCART BASKETBALL DUEL BILLED ON FRIDAY

Scoring Demons Feature Wampum-New Wilmington Section 21 Tilt

NEW WILMINGTON SCENE OF MATCH

That long awaited flipping duel between Coy "Springy" Craine and Kenny "Skyscraper" Cathcart features Friday's Section 21 headliner between undefeated New Wilmington and Wampum.

The No. 1 attraction here, to be unfurled on New Wilmington's small Community House court, starts at 7 o'clock.

Before reviewing the amazing scoring feats of the two centers, it seems apropos to mention the records of the rivals and the importance of the outcome.

Have Clean Mark

Coach John Eagleson's boys, monickered the "Greyhounds" because of speed and height, have copped 11 consecutive games this season and boast of five successive sectional victories.

The "Indians", tutored by L. Butler Hennon, have won 14 of 15 contests, averaging close to 50 markers a clash. Wampum is stymied with the college towners for first place honors with five scalps hanging on the wall.

WPIAL guessers have labeled New Wilmington and Wampum as two of the potential Class B champs.

Enough has been written about Cathcart and Craine that further words are redundant.

Towering about six feet six, Cathcart ranks as the tallest Class B performer in the WPIAL and one of the cleverest. He has tallied 201 points in 11 games. In Section 21, the "Skyscraper" has arched 78 markers.

Has No Peers

As a scorer, Craine has no peers around these hamlets. He boosted his scholastic total mark to 1,002 at Darlington. During the current semester, the colored star, about six feet one, has piled up 290 points, 103 of 'em in loop competition.

The clash should, for the time being, settle some of those arguments regarding the two stars.

While these bigwigs battle, East Brook and Union Township high mesh the cards at East Brook high and Bessemer plays host to Mt. Jackson. In a non-league number, Shenango meets Evans City at home.

Set back only twice in the sectional race, Bessemer still has a chance of bagging its second consecutive league crown by winning from here out.

WILL CARRY ON

HANOVER, N. H. — Unless definitely restricted by the government, intercollege athletics at Dartmouth will be maintained as an important part of the college's war preparations program, William H. McCarter, director of athletics, has stated.

"We recognize the limitations set by transportation conditions and possible changes in the organization in the college," he declared "but we believe that an intensive program of intercollegiate competition in combat sports will best attain the prime objective of physical training in war-time."

ORTIZ RETAINS BANTAM TIARA

(International News Service)

OAKLAND, Cal., Jan. 28.—Manuel Ortiz retained his world bantamweight boxing crown after blasting out George Freitas of San Jose, Cal, with a tenth-round technical knockout in Oakland auditorium.

Referee Billy Burke stopped the battle last night at the end of the 10th after Freitas went to his corner with gashes over both eyes and welts all over his face and body.

The scheduled 15-round bout was the first championship affair to be held in Oakland since 1938.

A special collection for the "march of dimes" netted $2,500 and in addition the fund was given 10 per cent of the gate.

Don Hutson Voted Top Pro Gridsman 2nd Straight Time

Green Bay Pass-Snatching Star Gets Scribblers' Joe F. Carr Trophy

(International News Service)

CHICAGO, Jan. 28.—Don Hutson, the Green Bay Packers' pass-snatching ace, today became the first player in the National Football league to win the Joe F. Carr trophy for the second consecutive season.

The league's most valuable player trophy, commemorating the late founder and former president of the professional football circuit, was awarded Hutson by sports writers representing each city in the league. He received six first place votes for 30 points. Bill Dudley, Pittsburgh Steeler halfback, won second place with 18 points, and Sammy Baugh, Washington Redskins quarterback, was third with 15 points.

The award came almost on the eve of Hutson's 30th birthday Sunday. During the 1942 season Hutson kept league statisticians busy checking possible record breaking performances. He was credited with 17 league records last season and may have 18.

SECOND TACKLE

SOUTH BEND, Ind.—When You Rymkus, Chicago senior, was voted Notre Dame's most valuable 1942 player by his teammates, he became the second straight left tackle to win the honor and the third Chicago district Lithuanian boy to distinguish himself at left tackle for the Fighting Irish in recent years. Rymkus understudied Jim Brutz, 1941 most valuable player. His line coach, Ed ("Moose") Krause of Chicago, won all-American honors at left tackle in 1937 and 1938.

Shenango Quint At Home Friday

"Wildcats" Play Host To Veteran-Studded Evans City Combination

Shenango Township high plays one of its few home night games Friday, entertaining a veteran-studded Evans City quintet in a non WPIAL billing.

Coach Eddie Nahas, whose system is commencing to pay dividens at the East New Castle school, has concocted a fighting club equipped with better than average talent.

In dropping four Section 21 clashes, the "Wildcats" extended New Wilmington, Bessemer and Wampum, the top three teams.

ST. VITUS MOVES NEARER TO TITLE

Last Year Champs Edge First Presbyterians; Wesley On Top, 42-23

Unless several of the antagonists find the key to St. Vitus' winning formula, the 1941-42 champs seriously threaten to sweep the New Castle Church Basketball league title as clean as a broom.

Last night on the Y. floor, the "Saints" squashed the First Presbyterians' title dreams, 35-32. The champs led 14-11 at halftime. J. Ross and V. Ross hauled the scoring load. Bradford was top man for the losers with 12 points. The loop kings added their fourth straight win.

Wesleys Cop, 42-23

In the second loop engagement, the Wesleys jabbed poor Tifereth Israel, 42-23. The Jewish lads were behind by only nine at intermission time. After that, however, D. Kegarise and Hilke, who divided 31 points, were as accurate as a meteorological report. G. Solomon was tops for the Israel quint, collecting 15 points.

The night's added attraction was an extra period event with the Forest Cubs tapping St. George, 33-32. The regulation game ended 32-all.

St. Vitus, Second U.P. and Epworths are the three undefeated loop fives. The First Presbyterians left the unsullied ranks last night.

Scrambled bits that may interest you.—

If you're wondering why Craine scored only eight points against Darlington, I've got the McCoy dope that the perpetual point-maker was held under wraps for a couple of solvent reasons. But, let L. B. Hennon, the star's coach, tell it. . . .

"Coy has been getting over the effects of a mild sprained ankle and a battered nerve on the right leg. Since the Darlington game meant nothing in the sectional race and since New Wilmington is coming up Friday, it was only sensible to yank him. . . .

"The bench ride afforded Craine a much needed rest. Not only that, I looked around the Darlington gymnasium as the game got underway and observed, much to my surprise, that my team was being scouted. So, Craine and his mates watched the game from there in." . . .

I bewail putting the whammy on Craine but it's news that he hasn't missed a foul attempt in three games! He has pegged 16 consecutive. Annie Oakleys. . . . Harvey Burris, Ne-Ca-Hi footballer-cager, will be sheepskinned Friday. . . .

Whipped up in a jiffy:—If the Boston Braves would buy off Johnny Murphy, "Lefty" Gomez wouldn't have a care in the world. . . . Primo Carnera's decision to turn wrestler emphasizes that "phonies" are still rampant across. Now he can take his place with Hitler, Mussy and Hirohito. What a quartet? . . .

Shame on me for not anticipating a coaching transformation at Pitt. When the Panther moguls announced next year's suicide card they must have known. I'm sure they'd never permit their grid warriors to be tossed through the meat grinder by a row or giant butchers without doing something about it . . . Cheerio. . .

Section 3 Fray Moved Back Due To Commencement Friday Night

Principal Clare B. Book today announced that the New Castle-Ellwood City high Section 3 basketball game, originally scheduled for Friday, will be played Saturday night on George Washington floor.

The inter-county clash, a big date on the local cage program, was moved back due to commencement exercises, Principal Book said.

A preliminary game, slated to start at 7, will preced the league contest.

Cubs Expend About $15,000 For Derringer

Veteran Right-Handed Hurler, 35, Is Sold By Cincinnati Reds

(International News Service)

CHICAGO, Jan. 28.—Paul Derringer, 35-year-old right hand pitcher of Cincinnati, became a member of the Chicago Cubs today in a deal which was believed to have involved about $15,000 in cash.

Born October 17, 1907, in Springfield, Ky., Derringer has been in the National League since 1931 when he played with the St. Louis Cardinals and lost two games in the world series.

In May, 1933, Derringer was traded to the Reds along with Earl Adams and Allyn Sout for Leo Durocher, Frank Henry and John Ogden.

Ranks With Best

Sharing the No. 1 pitching role with Bucky Walters, Derringer rang up 22 victories for the Reds in 1935, 21 in 1938 and 25 in 1939 when Cincinnati won the pennant. After winning 20 games in 1940, he won two and lost one in the series with the Detroit Tigers. In 1941 he won only 12 games, and last season he registered 10 victories and 11 defeats for an earned run mark of 3.06.

Derringer had a lifetime average of 38 victories and 22 defeats in games with the Cubs. In 1931 and 1939 he led the National League in winning percentage and was tops in complete games and innings pitched in 1938. He pitched two one-hitters in 1940 with the Cards and Cubs as victims.

Across his full 12-year career, Derringer chalked up 191 decisions and lost 174, working 3,078 innings. He was a member of the National League teams in the All-Star games of 1935, 1939, 1940 and 1941, being tabbed the winning pitcher in the 1940 game.

NO TRIPLE PLAYS

For the second time in its history, the American league had no triple plays in 1942. In 1933 the league also was without a triple play.

Bradley Optimistic About '43 Baseball

"Game Must Give Fans Show For Value Received," Indian Prexy Says

MANAGER BOUDREAU IS CONFIDENT TOO

By JERRY HEALEY
(I. N. S. Staff Correspondent)

CLEVELAND, Jan. 28.—Professional baseball is going to have a "great" year despite the war if the leagues "give a good show for value received." That was the opinion today of Alva Bradley, president of the Cleveland Indians.

Bradley was backed by his manager, Lou Boudreau, in the opinion that the national sport would not suffer from the pangs of global war. The "Kid" manager quoted Lieutenant Commander Russell Cook in charge of athletic activties at the Great Lakes Naval Training station, as saying that he had not found one man at the station who was definitely against baseball, and that most of them agreed that "the nation can take a step forward by seeing that baseball is continued."

Good Show Needed

"There are still a lot of great baseball players in our (the American) league," Bradley declared at a dinner of the Cleveland chapter of the baseball writers of America in honor of Ken Keltner, Indian third baseman picked as the most valuable player of the Tribe in the 1942 season, "and all that depends on a good financial year is whether we give a good show for the money.

"The curtain will drop on baseball if we don't."

Bradley said he believed that despite gasoline rationing the Indians would draw as many customers as last year.

Boudreau, about to start his second year as pilot of the Tribe, beamed confidence as he declared:

"We've got the team to beat for the 1943 pennant. We had a tough spot to fill—a catcher—and we think weve filled it with Buddy Rosar."

"If we can improve the team," Boudreau added, "We'll do it even if it increases our cost. If I'd had more Keltners on our team last year we would have finished higher in the league last year. The Tribe finished fourth.

"I really think we've got something to brag about this year but the St. Louis Browns will be tough and don't forget it."

Franklin Whales Senior Hi-Y Five

Fannin And R. Koszela Show Way in 40-30 Triumph On Wednesday

Continuing to display improvement, Ben Franklin's red-hot dribblers added the Senior Hi-Y team to their victory list, 40-30, Wednesday on Franklin floor.

Fannin and Ray Koszela led the way with 18 points between them. Robb, however, emerged with top scoring honors.

Friday afternoon on Franklin floor, the "Patriots" entertain George Washington in a New Castle Junior high league affair. The tiff starts at 3:30 o'clock.

LAST AS USUAL; PHILLIES' MOTTO

(International News Service)

SHIPPENSBURG, Pa., Jan. 28.—The Phils today were considering an offer from Shippensburg (Pa.) State Teachers college to use that school's facilities for spring training.

The invitation, approved by the college's board of trustees, president and president's council, was made to Phil President Gerald Nugent who has not yet selected a definite site for pre-season training. Swarthmore college has been tentatively selected but the school has not yet given its approval.

The Phils are the only remaining major league team with no definite spring training site.

REESE CALLED BY DRAFT BOARD FOR EXAMINATION

Brooklyn Infield Star Says He Will Not Ask For Deferment

(International News Service)

LOUISVILLE, Ky., Jan. 28.—Harold "Peewee" Reese, Broklyn Dodgers shortstop, ordered by his Brooklyn draft board to report for physical examination, said today he would not ask for deferment.

"I'm pretty sure I'm all right physically," he said, "although some of the boys occasionally are surprised by things the Army doctors find wrong with them. I don't think anything like that will happen in my case."

Peewee has a 3-A classification, is married and also contributes to the support of his mother and sister.

Now Store Clerk

He received his draft board notice Monday, but said he would write the board to see if he might not take the examination in Louisville, his home. He has been working as a store clerk in a Louisville Synthetic rubber plant.

"I took time off to run this thing down and find out if I couldn't take my medical examination here," he said, "but I've been to three draft boards here and still haven't found out everything I want to know."

He asserted he wasn't going back to work until he got things "straightened out," and added:

"I really don't know whether I still have a job at the plant or not."

National Scholastic Track Meet Feb. 27

Schoolboys Will Strut Stuff On Madison Square Garden Boards

(International News Service)

NEW YORK, Jan. 28—Sharing the spotlight with the National A. A. U. championships, Feb. 27, at Madison Square Garden, will be the tenth annual National Interscholastic indoor championships, Daniel J. Ferris, secretary of the A. A. U. announced today.

The Interscholastic meets, which are the dream of every schoolboy cinder fan, will introduce a new Mayor LaGuardia trophy in the high school division, while the Herbert H. Lehman trophy will again be awarded to the victor in the prep school competition.

Plaid Shatters Five Year Jinx

Second Half Tech Drive Sinks Titans; Goldblum Stars Again

LOCALS AHEAD 20-19 AT HALF

(Special To The News)

PITTSBURGH, Jan. 28.—Vanquished eight consecutive times by Westminster in the past five seasons, Carnegie Tech turned giant killer, whittling the Towering Titans by a 46-38 count Wednesday night in Pittsburgh.

The Tartans, bounced around like a football, both on the gridiron and cage court, for the past several years, took over the situation in the opening period, leading by a 10-7 margin. With Goldblum clicking, Westminster overcame the deficit and paraded to the front, 20-19, as the recess horn sounded.

Plaid Rallies

As if charged with a rejuvenating medicine, the Plaid played superbly in the third chukker, splitting the cords for 15 markers. The Lawrence countians, their ace, Goldblum checked, had to be satisfied with only eight markers, thus trailing by a 34-28 margin.

Tech continued its surprising play in the finale, annexing a dozen more points while the Titans were amassing 10. Carnegie, from the start of the third period, had the situation well under control.

Goldblum was top scorer for Westminster, with 15 points. He nailed up 13 markers in the opening half, but faltered in the closing sessions, dropping a brace of gift s[illegible] Miller and Dierken came next, each with seven. Brinn and Smith, who counted 26 points, were mainly responsible for the major upset.

The line-up:

Tech	G.	F.	P.
Smith, f	4	3	11
Brinn, f	6	3	15
Culbertson, c	2	1	5
Debortoli, g	1	1	3

NAMED ALDERMAN

MADISON, Wis.—Robert "Bobby" Alwin, assistant freshman basketball coach at the University of Wisconsin, who was captain of the 1941-42 Badger basketball team, was unanimously elected alderman from Madison's 116th ward as successor to his father, the late Harry J. Alwin. Bobby was guard on last season's Badger quintet, which tied for second in the Big Ten, and also played as a reserve in that position on the 1940-41 Wisconsin quintet which won the Big Ten and national championship.

FAIR OR FOUL

By LAWTON CARVER
INS Sports Editor

NEW YORK, Jan. 28.—It took the marines to get Ted Lyons off the Chicago White Sox and it began to look as though Lefty Vernon Gomez would remain with the New York Yankees until such time as somebody might agree to accept him on lend-lease. These elderly gaffers—old that is in the service of their clubs—get to be landmarks after a time, and when finally they leave a club after so many years things really are not the same for awhile. They were blue around the Yankee offices when the sale of Gomez to the Boston Braves was announced.

The marines got a good man recently when Lyons was given a commission and reported for duty that took him away from baseball for the first time since he reported to Chicago right from the Baylor campus in 1923.

Yank In 1931

Lefty isn't that old. He came to the Yankees in 1930 for a tryout, was dispatched promptly to St. Paul, came back the next year to start his career as a regular in the first season of the Joe McCarthy managerial regime and had never played with any other league club.

In his 12 years with the Yankees, Gomez came to the utter heights of pitching stardom, and, what's more important, attained an equally high place in the estimation of his fellow-players and the fans. Old El Gooferty—he's 32 and boyish—was and is all right. Ask anybody, even those who reluctantly praise a ball player.

He was a prankish guy in perpetual pursuit of a gag, and lifted the Yankees out of many a dull moment. In their deepest despair he managed somehow to come up with the crack that lifted the gloom, although, of course, the Yankees have been singularly fortune in the last decade. They never had much to worry about.

Pennants and world championships came easy to them through most of that time, with the so-called noble castilian doing his share of the work until the last few years. When he lost that left-handed fast ball that used to come zinging in there with a crackling hiss, he didn't have much else.

He made his last world series appearance in 1939 when McCarthy let him go against the Cincinnati Reds as a sentimental gesture. He neither won nor lost that one, and Red Ruffing had to out-last him to beat his world series record of six wins. Red did it last season in the first game against the St. Louis Cardinals.

The kind of pitcher he was is best shown by the figures on his career—six straight world series triumphs, four years of winning 20 or more games, one year, 1934, a record of 26 victories against five defeats

personages we've met in the ring business. Honest and game; that was Emmett. He frowned whenever anyone uttered a profane word within his hearing which was O. K. with most fistic people.

Don Hutson, Green Bay's end who holds a multitude of records has another today—most valuable player in the National Football League. It was the second time he had been thus honored. Announcement of the Joe E. Carr award was made by Commissioner Elmer Layden in Chicago. He formerly gridded for Alabama U. He entered pro football six years ago. Only two other players figured in the voting, Bill Dudley, Pittsburgh, and Sammy Baugh, Washington. They finished in that order.

Among his 1942 record accomplishments were catching 78 passes good for 1,211 yards and 17 touchdowns, scoring 138 points and kicking 33 points after touchdown. He stretched to 25 the string of successive league games in which he has scored. In 91 games, including three titular play-offs, he has been held without a pass reception only twice. He has caught 336 passes, 72 for touchdowns and has averaged 16.4 yards a catch since he entered the league.

Jackie Wilson, former N. B. A. featherweight champion, took his first examination before a Kittanning draft board yesterday. . . . Tom Kennelly, oldster who has watched 'em come and go, in commenting on the passing of Joe Choynski reports he saw him box in Philadelphia. The bettors won't be looking to Hialeah and tropical parks to determine whether or not they will cash in on their wages. The crepe is up and arrangements are made to ship away the nags. More than 1,200 horses were stranded by gas rationing—and this, too, after so many stranded autos have been dragged out of ruts by the equines.

A cough is an alteration in the rhythm of breathing.

It may meet a demand other than for pulmonary aeration.

Cough may be spasmodic or persistent.

Cough may be productive or non-productive.

It may be seasonal, reflecting atmospheric conditions.

A cough's acoustic qualities reflect tension of vocal cords.

Cough may arise from within or without the chest.

From within caused by a cold or by bronchitis.

From without by allergy to face powder, for example.

A pulmonary disease, such as tuberculosis, creates waste.

Coughing to expel such waste becomes pulmonary drainage.

Cough is the "watch dog of the lung."

FROM ME TO YOU

By MESEEALL

New rules and regulations for the A. R. W. are on hand today. Each Warden should make a point in reading the rules and then asking questions of his senior Warden. All senior Wardens, second and third in command of each post have been ordered to attend a very important meeting in February in the City building. Here important questions will be answered so that each sector of the town will be working together and understanding together on these new rules.

* * *

Every person in town should know who their Air Raid Warden is . . . if he hasn't called on you, you call on him. If we get long dim-out tests you are going to have to do something in getting your home ready for such an event. Blackout rooms should have been made ready last summer . . . if you haven't done so, why not do it right now. One can never tell what will happen in times like these. Practice makes perfect . . . in school when you were young and when we all were young, they used to have Fire Drills . . . 99 out of 100 people were never in a school when a fire broke out . . . but you wanted to know what to do if such an emergency took place. So it is with this blackout drilling . . . practice makes you perfect and in an emergency such as an Air Raid you will be wanting to know how you can best protect your family and yourself.

* * *

This is Thursday again . . . that means that at nine o'clock tonight the members of the Various Church League will go to the bowling alleys and have a real time. This League has done more to foster good fellowship than anything that has been done in the city in a long time. Men get to know men . . . If you want to meet men who are enjoying themselves at a good clean sport . . . look in on the church Bowling game some Thursday evening at the Neshannock Bowlodrome. Incidently it won't be long until golf time . . . many of these same boys get together in the summer time on the golf links.

* * *

How are you coming with your hobby . . . been able to pick up an idea that might keep you rested or occupied after working hours. The chap who doesn't have to be out every nite of the week to a night club or to a party is the one who will prosper at the end of the line.

What You Buy With WAR BONDS

The Ship's Compass is the guiding hand of every warship as well as merchant ship. It is usually located immediately in front of the wheel so the steersman merely has to look down to watch his course through the trackless waters.

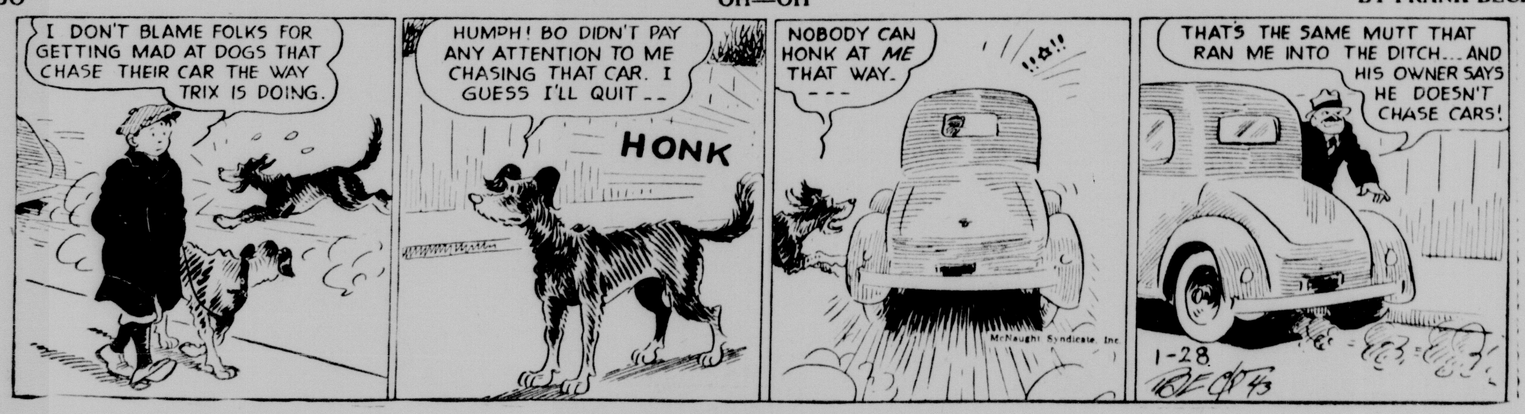

Uncle Sam is on a record **ship building program,** the greatest in the world's history. We must have ships to win this war and your purchases of War Bonds will not only provide the all-important compass, but the ships as well. INVEST AT LEAST TEN PERCENT of your income in War Bonds every payday and do your bit toward winning the war. Buy from your bank, Building & Loan Association, your radio station or at some retail stores.

Relatively Steady Market Opening But Most Of Stocks Drop Slightly

(International News Service)

NEW YORK, Jan. 28.—The stock market encountered more profit-taking today after a relatively steady opening, and the majority of stocks slipped fractions from last night's closing levels.

There were a number of exceptions, notably Yellow Truck & Coach, which jumped better than a point to a new 1942-43 peak on news General Motors would acquire all of the company's assets. Its opening block was for 9,000 shares at 15¼, an overnight climb of 1¼.

Utilities also were active and generally firm in an extension of yesterday's advance to new highs.

Trading throughout the list was at a somewhat slower pace. First-hour sales totaled 205,640 shares vs. 243,710 shares in the same period Wednesday.

Aside from a handful of notable movements, price changes were of modest proportions. Coca Cola featured on a spurt of 2¼ points to 96½, makin gits first appearance in two days.

A RANK DEAL!

FOSTER FIELD, Texas.—A general has bobbed up in the private ranks at the advanced flying school at Foster Field, Texas. And like many other cases in the armed forces, where the given name-army similarity prevails, it's causing a major share of fun and confusion. Foster Field's addition to the specie is General Lee, of Metalton, Ark., a private attached to a school training squadron here.

Paralysis Fund Donation Approved By Elks Members

Interesting Letters Are Read From Four Members In A.E.F.

ELLWOOD CITY, Jan. 28.—The Elks Lodge approved a substantial donation to the infantile paralysis fund at the regular meeting held last night at the bank hall.

Phillip Blandine conducted the meeting attended by seventy-five members. The club is also assisting with the president's birthday ball to be held in the ballroom on Friday night.

Four very interesting letters were read from members serving in the war zones. They were Ralph Powell in Australia; Mike Kraynak in the Solomons; Charles Cole, in England; and Lee Bloomer, in Africa.

Past exalted rulers will be guests at the next meeting with the exact date to be announced. A class of candidates was initiated after which a delicious lunch was served by Lou Young and his committee.

Milk Dealers To Follow Program

ELLWOOD CITY, Jan. 28.—The local Milk Dealers division of the Chamber of Commerce decided to unanimously abide with the federal rulings set up by Secretary of Agriculture Wickard's five point milk program.

Each point was carefully discussed and analyzed at yesterday's meeting of the dealers.

The five point program which is a federal requirement must be adhered to by milkmen all over the country but the local milk men have agreed to go all out on the program as it is a most patriotic one in these times that will show a dairy product shortage very shortly. The program takes effect February 1.

TIME TO ECONOMIZE

(International News Service)

FORT COLLINS, Colo.—Farm families should control the cost of living during 1943 even though their net cash income in 1942, on the average, will exceed that of 1941 by about 40 per cent. Exine Davenport of the Colorado State College Extension Service at Fort Collins said. It is estimated, in spite of this increased earning power next year, that nearly one-half of the farm families in the United States will receive less than $1,000 net cash income this year, and a fourth of the families will be in the $1,000 to $2,000 net cash-income class in 1942.

W. B. A. Officers Are Installed

Managing Deputy Reports That Ellwood Juniors Lead Entire Association

ELLWOOD CITY, Jan. 28.—An installation of officers featured the Senior W. B. A. lodge meeting last night at the bank hall with managing deputy, Mrs. Ethel B. Thomas of New Castle in charge.

Mrs. Thomas gave a talk and reported that the Ellwood Junior Review is the most outstanding of the entire association and has the largest net gain in membership. Mrs. Robert Morris is the junior supervisor.

Cards and bingo followed with the nice prizes going to Mrs. Joseph Bagosi and Mrs. O. W. Miesel for cards; and Mrs. James Mackey and Mrs. Arthur Maine for bingo.

After the meeting, tempting refreshments were served by Mrs. Minnie Fontana, Mrs. Bessie Smith, Mrs. Mabel Hogue, Mrs. Ethel Vinroe, Mrs. Hazel Dougherty and Mrs. Mary Dominella.

A meeting of the Junior lodge was held earlier in the evening at the same place with Mrs. Morris in charge. Plans were made to have an open installation with mothers as guests at the next meeting on Wednesday, February 10. Mrs. Alice Richards of Pittsburgh, state junior supervisor, will conduct the installation.

Mrs. Ethel Thomas was a guest at the meeting and gave a short talk.

Plans were made to have a Valentine party follow the installation. Games followed with the prize being won by Betty Lee Witte.

ELLWOOD PERSONALS

Lewis Bintrim of Park avenue and Ira Bintrim of Harmony have been called to Washington, D. C., by the serious illness of their brother, Major Albert J. Bintrim, who is confined to the Walter Reed hospital. Major Bintrim is a veteran of World War One and in the present war has been stationed in Washington in charge of the personnel department of the Army Air Corps. A former resident of this district, many local friends will be sorry to learn of his illness.

Miss Phyliss Jean Yahn, recent WAAC enlistee and daughter of Mr. and Mrs. Clarence Yahn of the Ellwood-Zelienople road, is to report in Pittsburgh on Monday for induction. She will be sent to Des Moines, Ia., for her auxiliary training.

Mrs. Abner Majors is confined to her home at Ellport by illness.

Corp. Robert Melzer will leave for Rapid City, S. D., tomorrow after spending a furlough with his parents, Mr. and Mrs. Alfred Melzer, Wayne avenue. He enlisted eight months ago and is connected with a bomber squadron in the air force.

More Furniture For Transfer Camp Needed, B-A States

Useable Chairs, Radios, Victrolas Good, More Up-To-Date Reading For U. S. Men

Bundles for America, Inc., sent out a plea for more furniture to be used in furnishing recreation rooms at Transfer Replacement Center, Transfer, for U. S. men in service. While New Castle residents have been co-operative and generous with their response, it is hoped that additional furniture will be donated for this patriotic purpose.

More sturdy straight back chairs, other types of chairs that will stand the wear, radios, victrolas, card tables and other articles of furniture that can be placed in the Transfer day rooms, are needed.

New Castle holds a place in the "front ranks" with the hearts of Transfer officials, for doing such a commendable job in furnishing five of these recreation rooms. The furniture collected was gone over, some re-upholstered, some given a new paint job, and a little touching up, offered pleasing results. The furniture provided comfortable quarters for the boys to spend leisure hours, perhaps to write that letter home; or to read a good story out of a magazine.

Bundle for America ladies state that more up-to-date reading material is also needed. Seems that folks are sending books and magazines that no one would have much use for. A book or magazine that you would find good, is a good one to turn over for the library tables at Transfer, for the boys will get the same pleasure from reading them too.

The organization doesn't confine efforts to this project entirely. They have aided local soldiers' families with reconditioned clothing which has been collected, and they have aided other families, through the New Castle relief offices. The clothing donations are used for the local community first. Other garments needed for victims of ship disasters, refugees of war and others have been forwarded to various cities, as another admirable part of the B. of A. projects. Furthering this, more groups of women are asked to donate their services and sew at the local headquarters.

Anyone having any article of furniture, if they will call the B. of A. headquarters at 6518, it will be called for.

WAMPUM

MISSIONARY MEETING

Mrs. James Tebay was hostess to the members of the Home Study Group of the Methodist church on Tuesday night. Miss Nellie Grinnen was leader and had charge of an interesting program on missionary work in Africa.

In conclusion a delicious lunch was served by the hostess.

The next meeting will be at the home of Miss Pearl Truby.

P. T. A. MEETING

Members of the Parent-Teachers Association met Wednesday night at the New Galilee school, where James Tebay is teacher. The program consisted of special music by a trio of W. H. S. girls, the Misses Ann Davis, Doris Tebay and Mary Jane Montozzi.

RATIONING AND CANS

Prof. I. V. Holmes of the W. H. S. has been notified that the general ration books for all canned goods, sugar and coffee, to be distributed February 1, will be taken care of at the school auditorium as previously.

High school pupils have been busy canvassing Wampum borough gathering tin cans. They have a pile of 10,000, they are proud to report, and are still hustling them in.

WAMPUM NOTES

Mrs. Carl Kent and infant son have returned from the Jameson hospital.

Mrs. S. Hennon and Mrs. C. L. Repman were New Castle visitors yesterday.

Mrs. W. C. Meechem of Ellwood City was the guest of her sister, Mrs. A. C. Noggle, and of Mrs. J. C. F. Jackson yesterday.

Mrs. Myra James, who has been ill at the home of her daughter, Mrs. E. Graham, is a little improved.

ENROLLMENT REMAINS HIGHER THAN AVERAGE

(Special To The News)

GROVE CITY, Jan. 28.—With an enrollment of 700 students for the second semester, Grove City college lost less than 12 per cent of its enrollment, as compared with a 22 per cent drop in the nation, it is reported. Ordinarily, the drop between semesters is 5 per cent.

In addition to the college enrollment, 300 marines and navy men are resident students, and this number may be increased.

Kindergarten And Democracy

(Contributed)

Democracy is an ideology. But a mere avowal of faith in democracy is not sufficient to preserve it. Democracy is also a way of life which can be achieved only through attitudes and through action.

There are in the United States some 6 million five-year-old children of kindergarten age. There is a great host of fathers, mothers, grandparents, uncles and aunts. What all these adults and their communities do with this vast army of children will influence the evolution of our democracy.

The scientific study of child development has given us new insight into the manner in which the mind grows and takes shape. This knowledge is ready for application on a wider scale. It needs such application in order to make democracy a more assured possession.

The emotional development of young children does not take care of itself. That complicated combination of emotional attitudes and tolerant insight called the democratic spirit is a fruit of slow growth, —a growth which has its roots in the early years.

To foster the spirit of democracy we shall have to reckon with these most formative years when the mind of the child is "wax to receive but steel to retain impressions."

You may now in these early years do things with a touch as light as a feather, which later you cannot do with the pressure of a hundredweight.

"Every biological and psychological fact we have discovered which bears upon the subject, indicates that the over whelmingly important educational years are those of kindergarten and below. Our level of culture can be raised as a nation more surely by increasing the emphasis on kindergarten work than in possibly any other single way."

Said President Peterson of Utah State College.

"The kindergarten ought not to be regarded as a mere annex to the public school system and one which can be lopped off With the depression more than 100 cities closed their kindergartens and many other cities made drastic reductions."

"The child is half educated when he comes to the first grade"—says H. G. Cooley an eminent psychologist. "Why not make that education purposeful? Why not use the native plasticity? A year in the kindergarten is probably worth more to a child than a year in upper grades or high school."

The educational rights of the kindergarten child should be as inalienable as those of the ten-year-old or the fourteen-year-old.

As a matter of public policy, the major purpose of kindergarten education should count heavily in any program for strengthening the sources of democracy.

Three More Young Women Join WAACS

Trio Accepted For Service Through Local Army Recruiting Station

Three more young women have joined the Women's Army Auxiliary Corps, according to Sergt. John T. Bilpuch, local Army recruiting officer. The women passed their examinations and were sworn in at Pittsburgh, and are now awaiting call to go to Daytona Beach, Fla., to begin training.

Sergeant Bilpuch states that applications are coming in here better than had been expected, and believes the reason for this is that the women of the New Castle community are just as anxious as the men to get this war over with and to put the Axis leaders where they belong and to this end are willing to relieve some of the men in the service with jobs they can do.

The latest to enlist are:

Louise E. Strawniak, 2005 Wilson avenue extension, daughter of Mrs. Stella Strawniak.

Mary B. Duzyk, 90 South Lee avenue, daughter of Mrs. Anna Duzyk.

Mary Joseph, 1024 Eighth street, Ambridge, Pa., daughter of Mrs Mary Hrynowich.

B. & L. E. Ordered To Restore Service

PUC Rescinds Previous Order On Passenger Service As Result Of Protests

(Special To The News)

MERCER, Jan. 28.—The Bessemer & Lake Erie railroad was under Public Utility Commission orders on Wednesday to restore "at once" passenger service between Greenville, Mercer county, and North Bessemer, Allegheny county.

The PUC thus rescinded its previous order for discontinuance of the service, and called for a rehearing at an unspecified date. The new order says the same schedule and tariffs that existed before the discontinuance of service shall be re-established.

Tuesday was the first time since March 11, 1882, that the Bessemer train known as No. 1 did not start its daily run southward from Greenville. The PUC order that the service must be resumed came as a result of protests filed during the past few days by groups of individuals from Grove City, Mercer, Fredonia and Pardoe, Mercer county, and Butler, Slippery Rock, Branchton and other towns in Butler county. Protests were filed by Mercer borough, council, Grove City Commercial club and Butler county commissioners.

Confirmation Of Flynn In Doubt

Fifteen Non-Committal Senators Hold Control Of Result

By WILLIAM S. NEAL
(I. N. S. Staff Correspondent)

WASHINGTON, Jan. 28.—A senate canvass today disclosed that outcome of the battle over confirmation of Edward J. Flynn to be minister to Australia is in doubt, with 15 non-committal senators controlling the result.

Both friends and foes of Flynn were making determined bids for votes as the senate foreign relations committee drafted a formal report recommending that President Roosevelt's choice of the former Democratic national chairman for the diplomatic post be ratified.

Democratic Senate Leader Barkley predicted that Flynn will win by a "safe margin" while Senator Bridges (R) N. H., said that defection of three Democratic members of the foreign relations committee indicated that he will be rejected.

Senate debate is scheduled to begin Monday, with Sen. Vandenberg (R) Mich., making the chief speech in opposition on behalf of the foreign relations committee minority.

Leaders of both parties agreed to push the controversy to a final conclusion, with the result that debate may be limited to two days.

The opposition to Flynn's nomination appeared to be assured of 41 of the 96 votes in the senate. His chief foes were confident that a swing against him will increase the total to a safe majority.

Girl Takes Over Grocery Truck

Pretty 19-Year-Old Solves Manpower Problem For Pittsburgh Store

(International News Service)

PITTSBURGH, Jan. 28.—Pretty 19-year-old Antoinette Rini, who prefers to be called simply "Lee", had the perfect answer today for the manpower problem at her father's grocery store in the East End.

She took over herself when the firm's only truck driver quit and efforts to find another satisfactory one failed. The comely lass "handles a bushel of potatoes as good as any man, and a truck the same way," her proud father, grocer Charles Rini, said.

"People stare at me when I drive by in the truck," Miss Rini said.

But again she had the perfect answer.

"I just stare right back at 'em," she said.

Rumors Say Others Attended Meetings In North Africa

(International News Service)

LONDON, Jan. 28.—Throughout the latter part of the Casablanca meeting of Allied leaders there were many rumors that Crown Prince Umberto of Italy as well as heads of neutral governments from both ends of the Mediterranean were in Casablanca, the Daily Express correspondent in Morocco reported today.

In addition to Prince Umberto, son of Italy's monarch who is reported to favor withdrawal from the war, the rumors said that Generalissimo Francisco Franco of Spain and Premier Sukru Saracoglu of Turkey were present.

Those rumors still persist, the correspondent said, despite clear denials by high ranking Allied officers.

"President Roosevelt's words that 'this is an unconditional surrender conference,'" he wrote, "might mean there have been peace offers already but I must report I know of no peace offer of any kind made before or during the conference on behalf of Italy or anyone else."

Errol Flynn Denies Charges Of Attack

Tells Jury He Did Not Attack Girl Aboard His Yacht On Cruise

(International News Service)

LOS ANGELES, Jan. 28.—Errol Flynn returned to the witness box today to tell his own story of his relations with blonde, 17-year-old Betty Hansen, who charged the film star with attacking her at a British sportsman's mansion.

Already the broad-shouldered hero of adventure films had denied flatly to a jury of nine women and three men that he twice attacked brunette Peggy Larue Satterle, 16, aboard his yacht on a week-end cruise to Santa Catalina Island in 1941.

Before a hushed, tense courtroom crowd composed mainly of women, the handsome actor denied that he beguiled the teen-age showgirl into his stateroom aboard the Sirocco on the pretext of "seeing the moon through a porthole" and then assaulted her.

In calm, clear tones he denied Miss Satterlee's claim that she left the yacht in anger and tears.

More Scrap Metal Is Sold In City

Another good price was secured for steel and iron scrap when Salvage Chairman Ross D. Rosenberger auctioned off the 35 tons of scrap collected on "Pearl Harbor Day", December 7. The successful bidder was Meyer Pazer of East Palestine, O., who bid $500 for the pile. The auction was conducted on the grounds of the Pennsylvania Power Company where the scrap was piled.

There are two rats for every human in the United States, and each of these rats does about $2 worth of damage a year, or more than $520,000,000 annually.
